COUNTY FIREMEN HOLD CONCLAVE AT LAKE VILLA

Antioch Truck to Race Against County to Open Convention Monday

The third annual Lake county Firemen's association convention will be staged Monday, May 27, at Lake Villa with an afternoon program filled with interesting events. It is announced by John Horan of Antioch, secretary of the organization.

At the stroke of noon, fire test runs will be made to Lake Villa with trucks from Antioch, Fox Lake, Grays Lake, Libertyville, Gurnee and Lake Villa racing for honors.

At 1:30 o'clock the fire-fighters from Antioch and Libertyville are billed to stage a demonstration.

Among the other events of the afternoon are: tug-of-war between various departments; barrel water fights; a base ball game between the Wauconda and Lake Villa firemen; concerts by the Alendale school and Grant Community high school bands.

Following mass, the delegates will open the business session with an address of welcome by J. K. Cribb and the response by Charles Burger of Fox Lake.

The reception committee is composed of past president Frank E. Huber, the chairman, of Antioch, and Charles James Stearns, Antioch; I. E. Landwer, Bayington; A. A. McMillen, Grays Lake; G. B. Umhdenstock, Long Grove; C. E. Heilmann, Lake Bluff; Fred Hamlin, Lake Villa; W. F. Buhr, Lake Zurich; Ray Wells, Mundelein; J. W. Jenks, Wauconda; E. O. Hoskin, Highland Park; George North Chicago; Adolf Francke, Waukegan; Charles Forest; Frank Freeman, Kewanee; and Charles Wright, Zion.

Besides Secretary Horan, the other officers of the county group are: Noel E. White of Fox Lake, president; E. Schneider of Libertyville, vice president; and Joseph Dada of Gurnee, treasurer.

Book Circulation Over 5,300 Mark In Antioch Library

The library's circulation totaled 5,349 for the year just ended, a report of Miss Mary Stanley, librarian, discloses.

She attributes this increased circulation, not to a large increase in the number of volumes on the shelves, but to excellent reading habits among the children and adults of this community.

"The reading of better books is advancing very greatly," Miss Stanley reports, "by the service which we have from Springfield. Older readers especially are profiting by this 'borrowing' service from the State as many books on a variety of subjects are being read. They include, for instance, interesting side-lights on our work, books for students on gas engines, bee-keeping, tariffs, sweatshops, cactus, etc., and others on dramatic culture, biographies, etc."

January was the month with the largest circulation and the highest average in non-fiction was 631. The monthly average circulation for the period was 110. The total number of books when the addition offered to the library by Mrs. Esther Gahrath is installed is approximately 100. Only fourteen of the 100 new borrowers were of the juvenile class, the figures show.

Although the school year will soon be over, Miss Stanley announces that the library will keep the same hours through the summer, namely, it will be open on Mondays, Wednesdays and Fridays from 3:00 to 5:30 p. m.

Peter K. Blunt, 63, Life-Long Resident Succumbs Suddenly

Peter Krum Blunt, 63, son of the late Charles E. Blunt, died suddenly Tuesday morning at his home at Peletia Lake. He was taken ill at 5 o'clock in the morning and succumbed to thrombosis shortly after Dr. H. F. Beebe rushed to his bedside.

Mr. Blunt, who was born in Lake Villa township on Dec. 1, 1872, was a life-long resident of this community. He is survived by his sister, Mrs. M. Clark, Victoria street, Antioch.

Funeral services will be held at the Methodist church Friday afternoon at 2 o'clock, with burial in East Fox Lake cemetery.

Proclamation

"For those who live in houses, those who repair and construct houses, and those who invest in houses..."

WHEREAS the National Housing Act, through the Federal Housing Administration, has made it possible for the owner of real property to:

Better the living conditions of his FAMILY,
Increase the efficiency of his BUSINESS,
Protect and safeguard his INVESTMENTS,
Stimulate the morale and workmanship of his EMPLOYEES,
Improve the standards and civic pride of his NEIGHBORHOOD.

NOW, THEREFORE, Be it known that plans have been perfected for launching a BETTER HOUSING PROGRAM in Antioch, beginning Friday, May 24. This date to mark the opening of the Federal Housing Campaign, the purpose of which is to stimulate repairs, alterations and improvements to homes and business properties. In this worthy and vital movement, made possible by the National Housing Act, we urge that every owner of real property act at once. Every property owner who puts men to work and creates a demand for building materials and services will find himself repaid many times in personal as well as community benefits. Your participation in the Better Housing Program means better business, better surroundings and better living for every citizen of this community. The opportunity and the challenge are yours! I call upon you to act.

(signed) GEORGE B. BARTLETT,
MAYOR

33 FINISH COURSE AT GRANT HIGH

Thirty-three graduates of Grant Community High school will receive diplomas at the fifth annual commencement tomorrow night. The commencement speaker is Dr. S. A. Hamlin, professor of education at Northwestern University. The class will be presented by Principal C. C. Claxton, and diplomas will be awarded by W. G. Nagle, president of the board of education.

Following are the graduates: Raymond Adams, Lucille Amann, Lillian Atwell, Harry Baudel, Ruth Carfield, Gordon Gadda, Marion Gomer, Julie Hall, Robert Johnson, Dale Johnson, Glen Johnson, William Janssen, Richard Kefir, Wendell Krogh, Paul Lewis, Marie Luby, Christ Lutz, Jeanette Myer, Norman Mollder, Evelyn Pester, Donald Rowden, Arthur Schueneman, Kenneth Sammlson, Edward Seavey, Josephine Siegmaler, Florence Spiczak, Dorothy Sebastian, Doris Tandrup, Earle Toneyan, Maxine Toops, John Wagner, Lillian Walk, David Walper.

Local Future Farmers Win in Track Meet

Chester Craft and Leslie Perry Place High at Waterman

Two Antioch boys won honors at the second annual F. F. A. track meet at Waterman, Illinois, last Saturday afternoon.

Chester Craft vaulted to a height of 8 feet, 10 inches, to win a first place blue ribbon in the pole vault. He also attained a height of 5 feet, 1 inch to win a second place in the high jump.

Leslie Perry, a Freshman with considerable speed and form entered the hardest race of the meet, the 440 yard run, and placed second. He is a recent discovery by C. L. Knill who coached the F. F. A. boys, and had coached a few days to train for the meet. It is hoped Perry will develop in time so that he will become a speedster on the track.

Six schools from Northeastern Illinois competed.

Antioch Firemen To Give Another Dance Saturday

The Antioch firemen will give the second of a series of dances at the Channel Lake pavilion Saturday night. A local orchestra has been engaged for this occasion, the dance committee announced today. There will be refreshments and the admission price is 25 cents.

Our Country Club To Open Sunday With 3 Tournaments

Golfers from the Chicago metropolitan area will open an attack on Old Man Par with three tournaments Sunday at Our Country club. It is announced by Otto R. Cleary, club manager.

Cleary, who looks after the fishermen and golfers' needs during the winter season at Leesburg, Fla., is beginning his second year at the state-line club. He has already ordered 50 caddies for the Sunday matches from Kenosha.

Large Audience Hears Dr. Preston Bradley at Men's Club Dinner

Destiny Is More Important Than Origin, Speaker Tells Audience

Destiny is more important than origin, and where we are going is far more vital to us than where we came from, Dr. Preston Bradley, noted pastor of the People's church of Chicago, told his audience at the ladies' night dinner of the Antioch Men's Club at the M. E. Church Friday night.

The speaker scored sectarianism as a triviality compared to the more vital problems of the day. His version of the depression is that the loss of morale is far more deplorable than any mere financial loss that has come to the citizens of this country. Unless there is a change in morale soon the United States is headed for a dictatorship—a form of government that has brought chaos and ruin to every European country that has tried it. "America at its worst, is better than any other country in the world at its best," Dr. Bradley said.

Every available seat in the banquet room was taken and there was standing room only for a part of the large crowd that came to hear the famous speaker who is known to thousands through radio addresses during the last five years.

Club Elects Officers. Preceding Dr. Bradley's address, the Men's Club adopted a constitution and by-laws and elected the following officers for the ensuing year: President, Dr. G. W. Jensen; vice president, William J. Anderson; treasurer, Virgil Felter; secretary, Ralph E. Clabaugh.

Who Sez Chain Notes Is Bunk?

"And so, dear children, they found a big pot of gold at the end of the rainbow and lived happily ever after." Quoth the fairy-godmother many long years ago.

Today her echo resounds throughout the land and here in Antioch with the same old story, slightly modernized. This:

"Send a (dime, dollar, pint, bustle, horse-collar) to the top-named person, make five copies, add your name to the bottom and mail them to five of your friends. As your name reaches the top you should receive 15,000 (dimes, dollars, pints, bustles, horse-collars) etc."

And so, dear children, they kept the chain unbroken and those who sent in the first of the 15,000 (dimes, dollars, pints, bustles, horse-collars) received a mere total of 243,084,400 (dimes, dollars, pints, bustles, horse-collars). And those latter folks received, in turn, a measly dribble of but 69,623,387,443,360,000 in dimes, pints, etc.

But the fairy-godmother forgot to remember that there were not enough dimes, dollars, pints, bustles, horse-collars in circulation. Neither are there sufficient presses in the government plant to print the postage stamps necessary to mail the letters. Nor are there government employees enough to sort the mail. Nay, kids, are there that number of people on earth, let alone the U. S., to do mate. So what?

Well, if you doubt, better take the afternoon off, get a nice big piece of paper, three pencils, and figure it out.

Mr. and Mrs. James Gaynor of Chicago were week-end guests of Mr. J. T. Knott.

STATE TROOPERS CRUSADE AGAINST MOTOR DEATHS

Lecture School Children in Governor's Campaign to Curb Accidents

The state's crusade against death behind the steering-wheel of the automobile is being brought before the school children of this community by uniformed members of the state highway police force.

In their effort to curb the rising toll of automobile deaths, especially in the rural areas of Lake county, Governor Horner has stressed the importance of protecting the children's lives and ordered the state troopers to talk with them.

Figures Picture Slaughter. At adult gatherings the constabulary boys point out that one person is being killed for each 4.8 miles of hard surfaced road in Illinois, which means that one life is claimed by the automobile every three hours and 20 minutes. These figures picture the slaughter for the state as a whole. In Lake county the rate is higher.

About three-fourths of the drivers involved in accidents were driving on a straight, dry road, the statistics disclose. Five of every eight pedestrians killed were involved while walking along the rural highway, darting out into the street from behind parked cars, crossing intersections against signals or while jay-walking.

Accidents Are Expensive. It is estimated that automobile accidents in Illinois cost \$60 per driver per year and in 1934 there were 1,463, 930 registered motor vehicles in the state.

Illinois ranks third compared with other states in automobile deaths, topped by California and Indiana respectively. Wisconsin was eighth, and the largest populated state, New York, was twelfth, followed by the next largest, Pennsylvania.

State Policemen Paul Chase of Channel Lake, Andrew Ugar and Michael Dyer, both of Waukegan, will present the gruesome death picture to school children and adult gatherings in and around Antioch.

STATE LABOR CHIEF IS FOR SCHOOL AID

R. G. Soderstrom, Representative, Points to Neglect and Asks Relief

Springfield, Ill., May 23.—"If the state of New York can put up \$116,000.00 a year and if California can put up \$76,000.00 a year to support their public schools it looks to me as if Illinois can do a great deal more than it has been doing," said Ruben G. Soderstrom in commenting on school legislation now before the general assembly in Springfield. Mr. Soderstrom, who lives in Streator, is president of the Illinois State Federation of Labor and is representative from the 39th District, composed of La Salle county.

"The state legislature," Mr. Soderstrom continued, "has been voting the state distributive school fund \$10,500,000 a year but, the trouble is, the schools have not been getting it. The state now owes, out of the last biennial appropriation, \$7,000,000. It ought to be paid by emergency legislation."

"The state is also back almost \$8,000,000 more in its payments to the school fund owing to delinquencies in tax payments. The schools are suffering bitterly and many teachers have gone unpaid for long periods of time."

"We now have bills, house bills 910 and 911, before the assembly which would raise the annual appropriation of \$10,500,000 a year to \$23,742,546. Illinois is one of the richest states in the union. It has been grossly neglectful of its schools."

"It is vitally important that every child in Illinois be given a good education. We cannot do it if we starve our schools. We can get the money from our steadily increasing non-property taxes. I know of no better use for the money."

MRS. STOCKWELL

DIES IN CHICAGO

Mrs. George Stockwell of Chicago and a former resident of Salem, Wis., died at her home in Chicago Thursday morning. Funeral services were held from the Hallman Funeral Home, North Avenue, Chicago, Saturday and interment in Salem Mound cemetery. The Stockwells for many years resided in Salem. Mrs. Stockwell was a cousin of Mrs. George Bartlett of Antioch.

Antioch Exhibits Perfected to Energize Housing Loans

Open Registration For Work Relief Friday, Saturday

Registration for government work relief in an effort to put able members on relief rolls back to work will take place Friday and Saturday at the Village hall. It is announced by Supervisor Bernard F. Naber.

64 EIGHTH GRADE GRADS TO RECEIVE DIPLOMAS FRIDAY

Nine Schools Represented in Class of '35; Keeler to Speak

Sixty-four graduates from the eighth grade, 30 from the Antioch schools and 34 from country districts of the township, will receive diplomas at the promotional exercises to be held Friday night at 8:30 in the Antioch Township high school gymnasium.

Otis Keeler, assistant state superintendent of public instruction, will address the graduates, and Principal R. E. Clabaugh will present the diplomas.

The class rolls from the various schools follow:
ANTIOCH—R. E. Clabaugh, principal; Oliver Anderson, Marie Ball, George Bartlett, Robert Bemis, Robert Burke, Roger Brogan, Winsor Dalgard, Robert Gaston, Mildred Horan, Virgil Horton, Charles Hostetter, Vaughn Jensen, Lorraine Laurson, Myrtle Lovestead, Helen Lohkeman, James Maplethorpe, Frances McDougall, Carolyn Phillips, Henry Quadenfeld, Joseph Schnaare, Marjorie Schnaare, Jean Sherman, Katherine Smith, Robert Story, Robert Straub, Lucille Thurlwell, Ruth Turnock, Florence Verkest, Robert Waters, Roger Williams.
BEAN HILL—Mrs. Margaret Wegener, Teacher.
WILLARD—Randall, Dolores Reuter.
CEDAR LAKE—Mrs. Grace Dickson, Teacher.
Elizabeth Erickson, Clifford Schonscheck, Theodore Toll.
CHANNEL LAKE—Miss Rhoda Jedele, Principal.
Harold Atwood, Jean Brett, Marie Hagdahl, Russell Homan.
GRASS LAKE—Mrs. Ruby Doty, Wood Teacher.
Elizabeth Davis, Richard Davis, Lyell Dibble, Charles Rothers, Edward Smith, Dorothy Wolf.
GRUBB—Miss Ruth Minto, Teacher.
IDA Belle Seger, Lyle Seger.
HICKORY—Miss Anna Drom, teacher.
Gene Carney, Lucille Carney, Hazel Fields, Caryl Nielsen, Alfred Pedersen, Dorothy Spiering, Helen Thompson.
OAKLAND—Mrs. Madelyn Kelly, Teacher.
Phyllis Hughes, Carlene Jorgensen, Clarice Minto, Ruth Pierstorf, Elizabeth Tenzinger, Arnold Weber, Robert White.
WEST NEWPORT—Miss Irma Dowell, Teacher.
Veronica Hoeckstra, Virginia Protine, Eleanor White.
The following program will be given at 8:30 o'clock:
Selections.....Antioch Grade School Band
Processional.....Graduates
Invocation.....Rev. L. V. Stiller
America the Beautiful.....Ward (Graduates)
Presentation of American Legion Awards.....A. Maplethorpe
"Mattinata".....T. P. Postl (Antioch Grade School Glee Club)
Address.....Otis Keeler (Asst. State Supt. of Public Instr.)
Presentation of Diplomas.....
"Hard-a-Lee".....R. E. Clabaugh (Antioch Grade School Glee Club)
Benediction.....Rev. J. E. Charles

Channel Lake Grads In Program Tuesday

Four graduates from the Channel Lake school will hold their class day exercises and program Tuesday night, May 28, at 8 o'clock. They are: Jean Bratt, Harold Atwood, Marie Hagdahl, and Russell Homan. All pupils attending the school will have a part in the program, Miss Rhoda Jedele of Willmet, principal and upper grade teacher, says. Miss Myrtle Norman of Antioch is the other teacher at the school.

It takes 1,600 nuts to hold a car together, one nut can knock it apart.

FEDERAL OFFICIAL URGES MERCHANTS TO BETTER SHOPS

Community Heads Consider Employment Exchange Plan for Artisans

Antioch's Better Housing campaign is underway! Practically all the exhibits at the headquarters in the Naber building have been installed and several applications for loans sponsored by the Federal Housing administration have been filed.

At a meeting of the local committee Monday, S. H. Rice, representative of Federal Housing Administration, pointed out that all business men, and particularly retail merchants now realize that the retail stores of this country must be modernized or within a few years, lacking modernization, they will have lost their desirability as stores.

The small merchant particularly is affected when buying shifts into other channels and when sales volume that he has enjoyed is diverted to other stores.

Says Plan Aids Merchants "This is a condition faced by every type of merchant," he told the group, "and it represents a real opportunity for you to help merchants keep in step with modernized merchandising."

Plans for an employment exchange were likewise discussed, at which all unemployed building-trades artisans may register for work. The committee hopes to establish such an exchange in another week. This will not only determine definitely the number of unemployed building mechanics in this community—but also will provide a list of workers available for all types of work.

"With business on the upturn, all commodities advancing, it is not going to be surprising when lumber and building material and labor cost begin to advance and a small job of repairing and renovating will cost considerably more than at the present time—and banks are cooperating by furnishing the money on the monthly payment plan," Herb J. Vos, chairman of the executive committee, explained.

Many Build Exhibits. The entire exhibit was constructed and arranged through the co-operation of the following organizations and individuals:

Building and roofing materials, Antioch Lumber & Coal company; bath-room fixtures and installation, Carey Electric & Plumbing shop; kitchen display, A. W. Beck; furniture, Bodo Bros. of Kenosha; plastering, Ray Richard; Lawrence Yopp; roof gutter and down-spout, D. B. Sablin; electric wiring installation, Robert M. Wilton and C. N. Lux; electric appliances, William Koelman; Gamble store, Public Service Company of Northern Illinois; pottery, H. T. Melnersmann; Celotex exhibit by representative of the company.

Contractors and carpenters: Dec. E. Bellock, J. Sibley & Son, Ben. Burke, Fred Warner, William Belter, Ellis Story, Ray Eddy, Carl Ball, Charles Jorgensen.

Painters and decorators: Frank Huber, Max Huber, Al Weimers, Lester Nelson, Jacob Kuba, Glenn Waller.

Depression Batters Schools — Petty

Embracing the doctrine that "schools are handicapped by an economic depression," W. C. Petty of Antioch, county superintendent of schools, told North Chicagoans at the Lindburgh school last week that there is no danger of spoiling the educational system.

Statistics prove, Petty explained, that schools have always gained by depressions. Better sources of revenue, better equipment and longer periods of service for teachers are the contributing items to this improvement, he said.

Petty, while admitting that schools are hard hit at present, disclosed the fact that the business conditions have made people more conscious of the needs of the schools. He intimated that people's interest in education becomes overshadowed during times of prosperity.

Mr. and Mrs. J. A. Pederson entertained Mr. and Mrs. Frank Mathis and children of Chicago Sunday. Mr. Mathis returned to Chicago with his family after having spent two months with the Pedersons.

NERO FIDDED—WHILE ROME BURNED

There are some modern Neros in Antioch that are "fiddling" around, wondering what is going to happen to this old world, while their homes are falling down for lack of repairs.

Just look around your home! What about that shabby paint—those ancient lighting fixtures? How about that inconvenient arrangement of the kitchen with its sink at an improper height? All that stooping and bending?

Perhaps living under a sieve—for that's what leaky roofs amount to—has its advantages. But the longer a house goes with a leaky roof, a tumble-down porch, or an undermined foundation, or lack of paint—the more it is going to cost to restore it to a healthy condition. Procrastination is going to prove costly in several ways.

There are a number of rent houses in the community which, with a little repairs and a few gallons of paint, could be made fair places to live—bringing in a dividend—places that will not be considered, except by those tenants that are undesirable, in their present state of repairs.

A repair loan will prove a genuine investment.

Hardly a day passes that the Antioch News office is not visited by some party looking for a desirable place to live—and they cannot find one. In almost every case they have the same story. It goes like this: "We can find several, but they are in poor state of repairs and not desirable."

Aside from the above argument, a building campaign will stimulate business in every class—an item that is necessary before anyone is going to find any degree of satisfaction in the progress of their respective efforts along business lines—and the sooner everybody realizes this and looks around for a job for some one, the sooner there is going to be a revival in business.

Paint your house, straighten up that old porch, stop the leaks with a new roof, replace that old costly plumbing. How about the dangerous electric wiring and the poor lighting system? Why not go to your contractor, your lumber dealer, plumber, painter—and he will advise with you on the necessities needed and help you to secure a loan for the funds required? Or the Federal Housing exhibition show-room in the Naber building?

Why procrastinate?

In several towns in this state, half the size of Antioch, thousands of dollars in loans have been made!

SIXTY-FOUR OUT OF ONE

HUNDRED LEFT NOTHING

Even in normal times, 98 per cent of the American people are poor investors. A survey made of 20,000 persons, before the current depression, shows that only one out of eleven left an estate which, if invested at the rate of 6 per cent, would produce an income of \$50 a month or over, and nearly two-thirds of the men studied—64 out of each 100—left nothing.

This was in good times. In the words of Henry Behner of the New England Mutual Life Insurance Company, "What a similar study would reveal today is unpleasant to contemplate."

Facts like these, which are gradually becoming known to the mass of men, are largely responsible for the changed investment attitude of wage-earners. More and more of us are starting investment programs in comparative youth, which will provide at least a competence in the future. Life insurance, trust funds and similar investment plans, which place safety first, are becoming more and more favored.

LESS INCOME—MORE TAXES

A chart in the New York Times presents a vivid picture of the adverse effects of rising taxation on our national spending power.

It shows that in 1929, the nation's income was \$81,000,000,000. The cost of operating all units of government was \$13,000,000,000. The cost of interest on government obligations was \$7,000,000,000. As a result, government took \$21,000,000,000—24½ per cent of our income—leaving \$60,000,000,000 for us to spend.

In 1934, the national income had dropped to \$60,000,000,000, including money borrowed by government which must be repaid in the years to come. The operating cost of government was \$15,000,000,000, and interest charges on government obligations were \$5,000,000,000. This total, \$20,000,000,000, amounted to 34 per cent of our national income and left us with \$39,500,000,000 to spend for the products and services which make jobs and payrolls, and keep our farms and factories going.

To sum up, the reservoir of income actually available to our citizens shrank from \$61,000,000,000 to \$39,500,000,000 in four years—while the cost of government rose \$2,500,000,000.

During depression every industry and every individual has been forced to retrench, in order to make outgo balance income. Government has pursued a diametrically opposed course—it has raised its expenses during years when the national income was steadily going down.

Here is one reason why the country finds the road to recovery so hard. Billions of dollars that would otherwise be used for productive purposes are going into public treasuries—and vast government borrowings make the outlook for future tax relief dark. These are facts that political efforts to minimize the tax problem cannot hide.

DIRT FARMERS APPEAR IN PERSON

For the first time in the history of agriculture dirt farmers found time to leave home, at planting time, and go to Washington, to speak for themselves. Tired and out of patience with their "farm organizations" and swivel-chair farm leaders they met in a great auditorium in the Capital City, "spoke their minds," listened to official farm chief Secretary of Agriculture Wallace; then went to the White House and received the approval, blessings and thank-you-for-sticking-by-me of President Roosevelt. They told Congress and others "whom it may concern" of their favorable opinions of AAA, had a good time in the Capital, returned home. They were a swell looking bunch of men, and if you hadn't known they were dirt farmers you might have mistaken them for a group of bankers and big business men—no offense to farmers intended by that last comment.

MANY DIFFERENCES OF OPINION

The Senate refused by a straight vote of 62 to 20 to approve of Huey Long's resolution to investigate Postmaster General James A. Farley, principally because Long was the author of the proposal. Senator Long is about as popular among his colleagues as a mosquito in a bedroom at 2 a. m.

Senators and Representatives have split wide open on the soldiers' bonus, and the Administration has not been able to hold Democratic leaders in line; inasmuch as they have come to believe that the ex-veterans might just as well have some of the gravy while it is being passed around.

The Roosevelt's power is challenged by his own party. Senators, with proposals to extend NRA until April 1, 1936. Richberg demands that it be continued for two more years. He has the support of President Roosevelt. Former President Hoover advises the Senate to "abolish entirely," because it is "founded on errors." Much of the opposition on Capitol Hill traces back to an underlying feeling that NRA continues to injure small business men and their enterprises. The big push behind NRA is being made by union labor.

LAKE VILLA

Mr. and Mrs. James Connell have recently returned from a trip to North Carolina.

Mrs. H. J. Nelson, who has been visiting her cousin, Miss Eula McCracken in Chicago, returned home early this week instead of last week, as was reported.

J. J. Barnstable, who has been quite ill at his home west of town, is improving, and Mrs. James Leonard, who has been confined to her bed, is also on the gain.

Mrs. J. A. Pedersen had as guests on Sunday, Mrs. Frank Mathis and family of Chicago, and Mr. Mathis, who is Mrs. Pedersen's brother, returned home with his family after having spent a month here.

Several members of the local N. A. attended a meeting at Grays Lake last Tuesday evening, which was their own meeting night, so they held a meeting in Barnstable hall on Tuesday evening of this week when Dist. Deputy Anna M. Cooley of Chicago, was a guest and instructed the officers in their work.

Mr. and Mrs. Eugene Sheehan, Jr., were guests of Mr. and Mrs. William Kufalk at Antioch on Sunday afternoon.

Isaac Stackler of Chicago, who has been improving his property here, spent Saturday and Sunday at his cottage at the lake.

Mr. and Mrs. Paul Seeger of Kenosha, with friends, visited their parents, Mr. and Mrs. Carl Seeger, on Sunday afternoon.

P. R. Avery and Lester Hamlin were in Sycamore last Wednesday evening to attend a Skeels dealers' meeting.

Mrs. Mary Kapple of Grayslake is spending a few weeks with her daughter, Mrs. C. B. Hamlin.

A number of our people have attended the Passion Play at Zhou recently and last Sunday's visitors included Mr. and Mrs. De Selms and daughters, Miss Masterson, Phil Anderson, Mrs. J. A. Pedersen, Mrs. Mary Kapple, Mrs. Theresa Abert and Mr. and Mrs. C. B. Hamlin. It is a wonderful production and splendidly done.

The P. T. A. met in regular session at the school house Monday evening for their last meeting of the year and installation of officers as follows: President, Mrs. Duncan; vice president, Mrs. Leo Barnstable; and Secretary and Treasurer, Mrs. Ed. Kelly; and Mrs. Paul Avery, historian. Mr. Frye did the installing in an impressive manner. As Miss Masterson is not to be with us next year, she was presented with a beautiful purse, as a token of appreciation. A short musical program was presented by boys from Grant High School, and their

principal, Mr. Claxton made a few remarks.

Mr. and Mrs. C. C. Frye and son visited Mr. Frye's sister and family at Argyle, Wis., over Saturday and Sunday and had a most delightful motor trip.

The local fire department is very busy this week with preparations for the County convention to be held here next Monday, May 27, when all the volunteer fire departments of the county will take part in parade, water fight, ball game and other amusements during the afternoon. The business meeting will be held in Barnstable hall at eight o'clock in the evening. Everyone is welcome.

The eighth grade pupils and the teachers enjoyed a banquet at the church last Thursday evening and thoroughly enjoyed the evening. The meal was prepared by the P. T. A. and the pupils put on a banquet program with Vanilla Philippi as toastmistress, and Mr. Frye contributed a good deal to the program.

Indians First to Use Paint
Paint in earliest Colonial times was mainly a luxury, antiquarians have discovered. At first crudely mixed paint derived from clay, enhanced the appearance of room paneling or floor. When mahogany for cabinet work came into use, homemade furniture was often painted brick red in imitation of the expensive tropical wood.

Blonds Always Win
That man has always preferred blond hair is supported by a number of facts in history. One of the best indications is that in the heyday of wigs it was the blond ones that were at a premium. The dark wigs were cheaper and made of horse or goat hair while the blond wigs were made of human hair.

Mystery of Hawah River
The mystery of the Hawah river, which rises near Adila Abnaba, Abyssinia, was solved by an explorer who learned that it ends in a series of lakes the last one having many hot springs.

MILLBURN

"Developing a Healthy Personality through Mental Hygiene," was the subject handled by Mrs. Robert Bonner and Mrs. Emmett King, local leaders of Hickory Unit of Home Bureau at the last meeting held at the home of Mrs. George Vose, Thursday, May 16. A healthy personality may be described by picturing the healthy physical, mental, emotional, moral and social qualities of the home maker. Fretting and worry are greatest hindrances to keeping mentally fit.

"Worry is a complete circle of inefficient thought, whirling about a pivot of fear."

"Think big, and your deeds will grow."

"Think small and you'll fall behind. Think that you can and you will. It's all in your state of mind."

These leaders had received their instruction from Miss Fannie Brooks, Health specialist on the Home Economics staff of the University of Illinois.

Miss Floy Dixon gave the minor lesson on "Books," which she had received from Mrs. John Mitchell, librarian of Cook Memorial Library at Livertville.

One new member, Miss Kate Gelling of Rosecrans, was added to the unit. There were twelve members present, also one guest, Mrs. John Stephens. The next meeting will be held at the home of Mrs. Gordon Bonner, on June 19th.

Thirty ladies from the Borean Society of the Congregational church in Rochester, Wis., attended a dinner at the Robert Bonner home Wednesday, May 15. This dinner was given for the benefit of the Millburn church, the benefit of the Millburn church, which met at the home of their leader, Miss Elsie Behrens, Saturday, May 18. The officers of the club are: Marjorie Geler, president; Billie Herrick, vice president; Lois Bonner, secretary; Elaine Lauer, reporter; Clara Jermakowicz, recreational leader.

Mrs. A. W. Safford, Miss Helga Safford, Miss Clara Foote of Chicago and Mrs. Ralph Wheaton of Wheaton, are spending some time with her cousin, Alice Deiman.

Miss Margaret Gilbert of Waukegan entertained the teachers of the South school in North Chicago at a dinner at the J. H. Bonner home Wednesday night. This dinner was given by Vivien Bonner and Mrs. Carl Anderson for the benefit of Millburn church.

Mr. and Mrs. Ed Bruce of Grays Lake spent Sunday afternoon at the home of Mr. and Mrs. Marcia Hoffmann.

Mrs. Harry Herrick entertained the bridge club at her home Thursday afternoon.

Richard Martin and John Edwards attended College Day at Lake Forest Saturday.

Mrs. Frank Hauser and children, Raymond, Clarence and Phyllis, spent Friday with her parents, Mr. and Mrs. Huff at Camp Lake.

Miss Mary Kerr of Lake Villa spent Saturday with her sister, Mrs. Alice Spring.

The Parent Teacher association is sponsoring a picnic dinner at the school Friday, May 24.

The three eighth grade graduates, Lucille Clark, Harold Bonner and Clarence Hauser, received their diplomas at the commencement exercises at Gurnee Monday night.

E. A. Martin spent Friday in Chicago.

A good set of heavy work harness was stolen from the Leslie Bonner barn Saturday night.

The annual conference of six Congregational churches of Lake County will be held at Washburn church at Half Day, Tuesday, April 18.

Mr. and Mrs. Roy Edwards and daughter, Betty Jane, and Mr. and Mrs. Robert Erwin of Waukegan were callers at the George Edwards home Sunday afternoon.

The Happy Rainbow Workers I-H club met at the home of their leader, Miss Elsie Behrens, Saturday, May 18. The officers of the club are: Marjorie Geler, president; Billie Herrick, vice president; Lois Bonner, secretary; Elaine Lauer, reporter; Clara Jermakowicz, recreational leader.

Mrs. A. W. Safford, Miss Helga Safford, Miss Clara Foote of Chicago and Mrs. Ralph Wheaton of Wheaton, are spending some time with her cousin, Alice Deiman.

Ill., called on friends at Millburn Saturday.

Mrs. Bert Edls and children of Waukegan spent Sunday afternoon at the Trux home.

Invention of Lace

Germany claims the invention of lace. A tombstone in Annaberg reads: "Here lies Barbara Ulman, died 14 January, 1575, whose invention of lace in 1561 made her the benefactress of the Hertz Mountains." Barbara Ulman, however, learned to make pillow lace from a Brechtan exile. She set up a workshop in Annaberg employing 30,000 workers. French refugees in northern Germany improved lace-making there and in Saxony, but German lace never acquired artistic reputation outside of Germany.

The Penny Post

The Penny Post was an institution, transplanted from London, by Benjamin Franklin, soon after he was appointed one of the two deputy postmasters for the Colonies in 1753, and, like its London counterpart, had grown up in the post office, not, strictly speaking, was not a government function. The main difference between the two was that in London the profits from the local post were assigned to a court favorite, while in America they were the perquisites of the individual postmasters or the carriers whom the latter might appoint.

Founding of Cleveland

Cleveland was founded in July, 1796, by surveyors from Connecticut, who represented another company, which had bought a strip of land along Lake Erie. This land, says the Cleveland Plain Dealer, had been claimed by Connecticut by right of its old British charter, but it had relinquished rule over it to the federal government and had sold the land to the Connecticut Land company. The company, in turn, resold farms and town lots to people in Connecticut, New York and elsewhere, and these settled in the city and the region around it.

Thirty Million Miles of Ford Economy

MORE MILES. Faster miles. Greater economy . . . that is the story of the Ford V-8. There are conclusive figures from owners to show that it is the most economical Ford car ever built.

A particularly interesting and complete report of costs comes from a national fleet owner who has owned 854 Ford cars which have run more than thirty million miles in business use.

175 were Model T Fords which were run 5,017,075 miles. 599 were Model A Ford cars which were run 24,041,632 miles. 80 are Ford V-8 cars which have been run 2,982,886 miles.

This owner's cost records show that Ford V-8 cars cost 12% less to operate than the Model A Fords and 31% less than the Model T Fords. And they covered more miles per month! The monthly average for the Model T Fords was 1509 miles. . . . For the Model A Fords, 1666 miles. . . . And 2571 miles for the Ford V-8.

Each year the Ford car gives you more in value and performance and costs you less to operate.

A Birthday Party

Last Wednesday afternoon a birthday party was given the little folks at the home of Mr. and Mrs. J. C. James, Jr. in honor of Miss Bertha's fifth birthday. The following named little people were present: Olga Mathey, Lillie Hancock, Edna Didama, Lera Blissett, Ollie Glick, Ruby Tillison, Carrie Sizer, Leo Kurr, Thomas Berke, Sammie Gilbert, Nina Stone, Alice Polz, Nellie Bimer, Lena Drury, Laura Williams, and Alva Didama. Miss Bertha was recipient of numerous presents from her little friends and fully enjoyed the event. Luncheon was served the children about 5 p. m. and the event closed at 6 p. m. with a grand final move for home of the little ones, who fully enjoyed the occasion as only children can.

Talk up your town; don't run it down. If you don't like it leave it, but don't stay here and abuse it. As long as you choose to reside here you are a component part of the place and are very foolish not to see your own disparagement. Talk up your town, write and speak in its praise, and show yourself worthy of your home and friends.

Thirty Years Ago

Little Dorthea Hacker returned to her home Saturday after a visit in Chicago.

A new cement sidewalk is being built in front of Gollwitzer's barber shop and Morley's saloon.

Mr. and Mrs. F. A. Drom of Genoa Junction were calling on Antioch relatives and friends over the week-end.

Misses Louella and Eva Mack returned home Sunday after spending the winter in St. Paul.

Mrs. Tom Brogan and little daughter of Chicago, spent the first of the week with relatives here.

It is seldom that the ladies are as successful in catching fish as the gentlemen, but we are informed that Miss Susie Morley succeeded in landing a pickerel, which weighed 10½ pounds, from Petite Lake last Friday.

On Monday of last week, the business men's train was put on for the summer. This train will leave Antioch at 6:57 a. m. and arrive in Chicago at 8:30 a. m., and will leave Chicago at 5 p. m. and arrive in Antioch at 6:39 p. m.

Fifteen Years Ago

Rev. S. E. Pollock was in Chicago Wednesday on business.

N. S. Moore of Elgin spent Sunday with Mr. and Mrs. A. B. Johnson.

Mr. and Mrs. Robert Trieger of Norwood Park spent Monday with Antioch relatives.

Arthur Trieger is ill with scarlet fever. The home is under quarantine and Miss Pearl Trieger is staying at the home of her uncle Gus Trieger in order to continue her school work at Lake Villa.

Mrs. Arthur Van Patten is quite ill with rheumatism.

The May day exercises at the high school last Friday was largely attended and proved to be a very enjoyable affair.

Ten Years Ago

Change in Weather

Cool breezes that came as a respite from the heat of Saturday afternoon turned into watery blasts during the night, and brought to Antioch the frigid weather reminiscent of real winter. Snow fell between 9 and 10 o'clock Sunday morning adding the final touch to the wintry scene. The flakes melted, however, as fast as they hit the earth, which had been warmed by many spring days. All that was needed to make the day complete was to set the calendar back three months. Despite warnings of thunderstorms and possible wind storms Saturday the unusual change came without incident. Radio warnings of a tornado caused some concern but proved to be groundless. Motorists found the day to be cold for the usual Sunday spin, and the motorcycle cops a day of comparative rest.

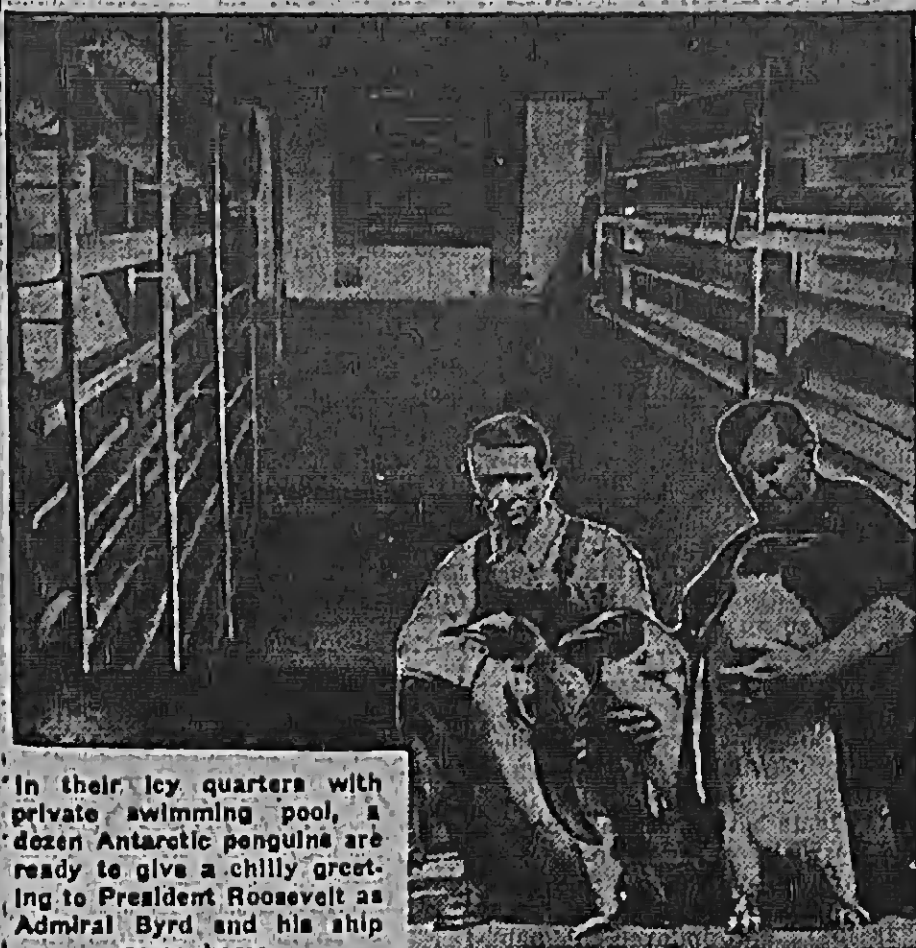

Our invitations to the Movies. The Antioch News invites as its guests Mr. and Mrs. A. Harrison to witness Wednesday's presentation of "Twenty One" at the Crystal Theatre, and Mr. and Mrs. Ed Dressel to witness Wednesday's presentation of "Code of the West" at the Antioch theatre.

Happy In Refrigerator

In their icy quarters with private swimming pool, a dozen Antarctic penguins are ready to give a chilly greeting to President Roosevelt as Admiral Byrd and his ship come home.

PREENING their feathers and splashing merrily in their icy private swimming pool, more than a dozen Antarctic penguins last week prepared to receive a greeting from President Roosevelt as Admiral Byrd's supply ship steamed up the Potomac to Washington. Their greeting was necessarily a chilly one for their room and bath aboard the vessel were specially refrigerated to keep them comfortably cold during the long voyage from Little America.

The birds are Imperial penguins, and are half as tall as a man. They are the first of the Antarctic breed ever brought back alive to the United States. So cold are the temperatures in which they thrive that the ship's regular refrigerator room could not be depended upon to keep them healthfully chilly.

Even in the cold of their special air conditioned room with its salt water swimming pool, more than half the birds died. Ironically, they were stricken with pneumonia, autopsies revealed, indicating that at least they were protected from the

heat while the ship was in the tropics.

Quarters for the penguins were installed aboard the ship in New Zealand before it started for Little America last January to pick up the expedition. A tank was built in the floor and the most efficient type of refrigerating equipment installed to keep both the air and salt water at low temperatures. To keep out heat, particularly in the tropics, walls, ceiling and floor were insulated with dry-zero, a high efficiency material developed for use in household electric refrigerators. Oddly enough, this material, depended upon to keep the penguins cold and alive, was also used to keep Admiral Byrd warm and alive in the hut he occupied during his solitary antarctic vigil last year. It was also used in all the houses at Little America.

Whether the penguins must be kept permanently under refrigeration remains to be discovered. Other varieties live in the tropics. In fact, the vessel stopped at the Galapagos and picked up a collection of the smaller penguins that thrive there. It is this type that are now seen at zoos and aquariums.

WILMOT

Mr. and Mrs. Walter Cairns and daughters spent Sunday with Mr. and Mrs. John Cairns at Elkhorn.

William Harm, John Grabow, George Dean, Sr., and Ouldo Kohlsiedt returned from Vester, Iowa, Thursday after a two weeks' visit there.

Mrs. William Harm and Mrs. Herman Frank and daughters spent Thursday with Mrs. John Grabow and daughter at Burlington.

Miss Margaret Jensen of Kenosha gave a shower for Miss Bernice Harm at Mrs. Anton Jensen's home at Kenosha. They presented Miss Harm with an electric iron.

Mr. and Mrs. J. A. Nolan of Oak Park, Ill., Miss Grace Carey, Miss Ermine Carey and Dickie Carey attended a dinner in honor of Catherine Carey, at Bernie's restaurant at Twin Lakes, given by Mr. and Mrs. James Carey. The dinner was in honor of Catherine's first Holy Communion at the Holy Name Church of Wilmot.

Mrs. Foster, Moni, Ill., formerly of Wilmot, is in State Hospital there, very ill.

Next Sunday, English services will be held at 9:30 a. m., at the Peace Lutheran church. On May 30th, Ascension Day, special English services will be held at eight o'clock in the evening.

Mr. and Mrs. F. A. Kruckman attended the funeral of Miss Laura Mason at Richmond Sunday.

Miss Grace Carey left Sunday to

visit Mr. and Mrs. Wallace Dobyns and Cora Tyler at Quincy, Ill. From there they will motor to Spring Hill, Alabama, to be present when Eugene Dobyns receives his degree of Science from Spring Hill College.

Mr. and Mrs. Gene MacDougall and Betty called on Mr. and Mrs. Dean Ewing at Crystal Lake, Ill., Sunday. Miss Viola Zarnstorff spent the weekend at Genoa City, visiting her parents.

Mr. and Mrs. H. C. Darby and Mrs. John Hasselmann entertained at a post-nuptial miscellaneous shower at Mrs. Darby's for Mr. and Mrs. Harry Hasselmann of Sycamore, Ill. Those attending from out of town were: Mrs. Bert Ehlert of Chicago, Mrs. Richard and daughter, Tillie, of Cicero, Ill., Mrs. Fred Liedke, Mrs. Bertha Hahn, Mrs. Verna Wolf, Mrs. Billings, and Mrs. Portwine of Kenosha; Mrs. Chris Ehlert, Mrs. Charles Richard, Mrs. Frank Albrecht, Mrs. Bogda and Mrs. William Sarbecker and daughter of Silver Lake. From Wilmot: Mrs. Charles Lake, Mrs. Fred Albrecht, Mrs. Charles Scholtz, Mrs. William Stenzl, Mrs. Elmer Stenzl, Mrs. Ferdinand Beck, Mrs. Walter Frank, Mrs. Charles Kanis, and Esther Kanis; Mrs. Lewis Sandberg and Mrs. Charles Miller of Fox River. The happy couple received many lovely gifts. Bounteous refreshments were served.

COC power shovels started Tuesday to fill in the low land near the river. The camp has a very good kitchen hall team and wants to challenge outside teams. Address communications to Walter Lockendorf, Clerk.

Mr. and Mrs. C. M. Anderson of Milwaukee and Miss Anderson visited Mr. and Mrs. M. Schnurr Sunday. A dance will be held at the Oak

Knoll school Friday night for the benefit of the P. T. A.

Mrs. John Sutcliffe, who was operated on last week at Dr. Brand's hospital at Woodstock, has been very ill, but is now improving.

Mr. and Mrs. William Stenzl transacted business in Antioch Monday.

Mr. and Mrs. Cliff Pacey were at Woodstock Friday visiting Mrs. Earle Shales. They visited Sunday at the Henry Helm home in Elkhorn.

Miss Rhoda Jedelo and Arthur Fiegel were honor guests of the Hannan School faculty at a seven o'clock dinner at the home of Miss Esther Beaster at Salem. Other guests were: Mr. and Mrs. R. S. Ihlenfeldt, Mr. and Mrs. C. Shields, Mr. Wirt Ellison, Mr. C. L. Eggert, Miss Helen Rees, Miss Julie Whalen, Miss Adeline Beaster and Miss Esther Beaster.

Miss Rhoda Jedelo was an honored guest at a miscellaneous shower at the home of Mrs. M. Schnurr on Wednesday evening. The affair was given by Mrs. Schaurr and Miss Ruth Thomas. Eighteen guests were present and Miss Jedelo, who is to be a June bride, received many lovely gifts. Five hundred was played and an attractive lunch was served.

Miss Erminie Carey and Grant

Tyler, accompanied by Mrs. Walter E. Carey and son, Dickie, of Mollenry, Ill., went to Aurora, Ill., on Saturday. Grant Tyler spent Sunday visiting at the Van Lier home in Brighton, Wisconsin.

Union Free High School Notes
The Union Free High School basketball team defeated Norris Farm at Norris Farm 17 to 3. This victory assures the team of the championship of the eastern section of the conference. On Saturday, May 25, they will meet the western champions to decide the championship of the conference.

The alumni banquet and dance will be held Saturday evening, May 25th. Reservations should be in on May 23rd.

Mr. Fred L. Witter, Superintendent of Schools of Burlington has been obtained to deliver the commencement address. The details of the program will appear next week.

The Junior Prom was held in the gymnasium Friday night. The decorations were unusual and very striking—a ceiling of azure blue crepe paper with 800 balloons of brilliant hues suspended in a circle from the center of the ceiling. One hundred and twenty couples danced to the music of Benson's orchestra of Bristol. Punch was served by the freshman.

The Big Demand of Truck Buyers Today is for Economy

IT PAYS 3 WAYS
TO BUY CHEVROLETS

1½-Ton Stake (157-inch wheelbase)

Today, when every wise buyer of trucks is particularly interested in getting dependable transportation at lowest cost, the money-saving advantages of Chevrolet Trucks have a particularly strong appeal. Truck buyer after truck buyer is discovering that it pays three ways to buy Chevrolets. And truck buyer after truck buyer is deciding to take advantage of the big savings which Chevrolet offers. You, too, will get better haulage service at lower cost by buying a Chevrolet Truck because of these triple economies:

1. Chevrolet Trucks sell at the world's lowest prices.

2. They use less gasoline and oil because they are powered by six-cylinder valve-in-head engines.

3. They give longer, more dependable service because of the extra quality which Chevrolet builds into every part of its products.

Visit your nearest Chevrolet dealer—this week. Have a thorough demonstration of the right Chevrolet Truck for your haulage needs. Buy a Chevrolet and get better truck performance at the world's lowest prices!

FIDELITY LODGE MET WITH MR. AND MRS. LUBKEMAN

The regular meeting of the Fidelity Lodge was held at the home of Mr. and Mrs. Emil Lubkeman Monday night, with very good attendance. After the business session, the evening was spent in playing 500. Prizes were awarded to Mrs. Frank Mongan, Mrs. Sine Laurson, Mrs. Andrew Lynch and Mrs. William Grubbs. The next meeting will be held at the home of Mr. and Mrs. Frank Mongan, on Spafford street.

DINNER-BRIDGE AT DUNN HOME MONDAY EVENING

Mr. and Mrs. James Dunn entertained the grade school teachers and the officers of the Antioch Parents-Teachers Association Monday evening at a six o'clock dinner, after which bridge was played. Miss Aileen Wilson was awarded the prize for the highest score. Other prize winners were: Mrs. Virgil Felton and Mrs. Charles Lux. Miss Aileen Wilson was also winner of the floating prize.

REV. HOLDEN TO DELIVER BACCALAUREATE SERMON

The annual Baccalaureate services of the Antioch Township High School will be held Sunday evening, May 26, at the high school auditorium at 8:15. Rev. E. Holden of the Millbrook Community church will deliver the sermon. There are 46 in the graduating class this year. Class advisers are Mrs. Roger Dardenne and Mr. C. L. Kuttel.

WEDNESDAY CLUB MEETS AT HOME OF MRS. NELSON

One of the most enjoyed meetings of the Wednesday club was held Wednesday at the home of Mrs. Myrus Nelson, on Spafford street. A pot-luck dinner was served at 1 o'clock and the afternoon was spent in playing bridge. Prizes were awarded to Mrs. Vera Rentner, Mrs. Katherine Reinke and Mrs. Margaret Stanton.

TUESDAY CLUB MEETS AT HUNT HOME

Mrs. Frank Hunt entertained the members of her bridge club Tuesday afternoon at her home on Orchard street. Three tables were filled with bridge players for the afternoon. Prizes were won by Mrs. Eva Kaye and Mrs. Mollie Somerville.

MR. PULLEN CELEBRATES BIRTHDAY ANNIVERSARY

About 40 neighbors and relatives of David Pullen gave a surprise for him Monday evening at his home on North Main street. The evening was spent in playing games and a social time. A delicious luncheon was served.

AID SOCIETY TO MEET WITH MRS. HOFFMAN

Mrs. Ruby Richey will be co-hostess with Mrs. Lawrence Hoffman next Wednesday afternoon, May 29, when the Ladies' Aid of the M. E. church will meet at the Hoffman home at two o'clock.

BRIDGE CLUB ENTERTAINED AT HAWKINS HOME FRIDAY

Mrs. Eugene Hawkins was hostess to her bridge club Friday afternoon at her home on Main street. Bridge was in play at three tables. Mrs. H. F. Beebe won the prize for holding the highest score and Mrs. John Brogan won second prize.

HAS APPENDICITIS OPERATION

Clayton Bartlett, son of Mr. and Mrs. George B. Bartlett of Antioch, was operated on for appendicitis Tuesday morning at the Victory Memorial Hospital, and is getting along nicely.

ENTERTAINS WILLING WORKERS

Mrs. Floyd Horton entertained the Willing Workers at her home last Thursday afternoon.

Card of Thanks.

We wish to thank our many friends and neighbors and especially Mr. Herman Cuddeback and Mr. S. E. Pollock for their acts of kindness and sympathy in our recent bereavement.

Charles VanPatten
Georgia M. VanPatten

Sharks Eat One Another

Watchfulness, the law of the sea, applies to sharks as well as other fish. Their span of years—never yet counted by scientists—is dependent upon their own alertness, for, although only a shark can bite a shark, these monstrous fish are cannibals, and eat one another as well as everything else in the sea.

Idiosyncrasy

Idiosyncrasy, meaning a constitutional peculiarity, is correctly used in the same manner as one would use peculiarity. One does not say, "He has a peculiarity for strawberries," but "a peculiarity of his is a craving for strawberries." Hence, "An idiosyncrasy of his is a craving for (or an aversion to) strawberries."—Literary Digest

Moved 500,000 Years Ago

Early Stone Age men moved from the plains of India into the Himalayas during a time of mild climate 500,000 years ago.

Choir rehearsal on Friday at 4:30. On Sunday, June 2nd, at 4:30 P. M., the choir of St. Martin's church, Chicago, will visit the parish for the service of Evensong. Please plan to attend this service.

The next Bishop's Pence Sunday is June 2nd.

CHRISTIAN SCIENCE CHURCHES

"Mortals and Immortals" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, May 19.

The Golden Text was, "In the way of righteousness is life; and in the pathway thereof there is no death" (Proverbs 12:28).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Unto thee, O Lord, do I lift up my soul. Show me thy ways, O Lord; teach me thy paths. Lead me in thy truth and teach me: for thou art the God of my salvation; on thee do I wait all the day" (Psalm 25:1, 4, 5).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Mortals must gravitate Godward; their affections and aims grow spiritual—they must near the broader interpretations of being, and gain some proper sense of the infinite—in order that sin and mortality may be put off" (p. 255).

Degrees of Unbelief

Infidel is a term given to disbelievers in religion by those who do believe, rather than by themselves. An infidel is one who does not believe in religion, or, often, in the particular religion of those about him. An atheist is one who denies the existence of a God; while an agnostic is one who professes ignorance as to whether or not there may be a God, a future existence, etc., and who often holds that man cannot possibly prove the matter either way. Thomas Huxley was the inventor of the latter term.

Modern and Classical Greek

There is some difference between modern and ancient Greek. The vocabulary has changed by the intrusion of loan words from other languages, notably Italian and Turkish, though the inflection has not been as great as to give the language the appearance of a mixed language. After the establishment of the Greek kingdom, in 1830, there was a stronger movement toward the purification of the modern language and a closer conformity to the ancient Greek idiom.

Chinese Jews

The only known Chinese Jews have lived in Kaifung, China, since 1163 A. D. For several hundred years, they kept their colony apart from the Chinese. Today, however, after numerous generations of intermarriage, the few who are left have almost entirely lost their original racial characteristics.—Collier's Weekly.

Weird Animals on Islands

On the Galapagos Islands, there still exist extraordinary animal forms that attracted Darwin's attention, such as birds that do not fly, turtles weighing hundreds of pounds that never go near the water, sea bats with wingspreads of 20 feet, dragons that rear their lengths in the air and walk on their hind legs, wild goats who enjoy drinking salt water, and a host of other equally weird animals.

The First Almanac

The first almanac was printed in Vienna in 1457. The earliest American almanac was published by William Bradford in Philadelphia in 1687. Benjamin Franklin's "Poor Richard's Almanac" was published from 1732 to 1757.

Ornaments Indicate Residence

Women of Walcheren, Holland, wear a gold ornament on the side of their head on market day to indicate the village from which they come. In medieval dress, ermine-trimmed skirts to their feet, some of them arrive on bicycle.

Licensed Jesters

From medieval times till the seventeenth century licensed jesters or fools were usually kept at court, and frequently were included in retinues of wealthy nobles.

Personals

Mrs. Bertha James Gilbert spent the week-end at the home of her parents, Mr. and Mrs. J. C. James.

Mr. and Mrs. S. Boyer Nelson left Monday morning for a visit with Mrs. Nelson's father, Mr. E. Schwartz, at Gorham, Illinois.

Mrs. Charles Tiffany of Waukegan was the guest of her mother, Mrs. William Keatman, Saturday.

Mr. and Mrs. L. M. Wetzel were calling on friends in Antioch Sunday. John Dupre and Kenneth Kopp of Sullivan, Wis., were Sunday guests of Mrs. D. A. Williams and Ruth Williams.

Electrolux, Inc., will place 2 men in Lake county towns as district field representatives. Write to Paul D. Golbe, Electrolux, Inc., 805 Chicago Ave., Evanston, Phone University 7677.

Mrs. Nancy Robinson and son, Don, Mrs. Catherine Hutton and George McCarthy of Winnipeg, Canada, are guests of Mr. and Mrs. John Murray this week.

Mr. and Mrs. Albert Tiffany spent Sunday in Norwood Park the guests of Mr. and Mrs. T. H. Slusser.

Mr. and Mrs. A. W. Dubs of Waukegan were guests of Mr. and Mrs. D. R. Burke Sunday.

Mrs. William Musch and daughters, Wilma and Hazel, were guests of Mrs. Arthur Lubkeman in Waukegan Tuesday.

Special sale of Silk Prints and Jacket dresses \$3.75 value, priced at \$6.95. Marlanno's.

Avenge Defeats

Woodworth Divides Twin Bill with Westsiders; All-Stars Win

Representing Sororson's Tavern, members of the Channel Lake A. C. split a double-header with the fast Woodworth softball team last Sunday at the Grade school diamond. The visitors staged a four run rally in the eighth to win the first game, 10 to 8; but the westsiders got revenge by shutting out their Wisconsin opponents in the second game 5 to 0. Ray Sororson handled the hurrying chores in the opener and John Koukol in the final.

All-Stars 11; Lake Villa 3. Keulman's Antioch All-Stars went on a hitting spree to thrash the strong Lake-Villa outfit 11 to 3, there, last Friday, to even an earlier 13 to 7 defeat the losers administered the locals hero, J. Walwyler had things pretty much his way pitching for the All-Stars; but Reinback ran into difficulties from the start. Tiede, who relieved him on the mound in the fifth, fared little better than his mate.

Lake Villa Wins Again. In the third game of their series Tuesday night here, Lake Villa oiled out a 13 to 12 margin over the All-Stars in a 10-inning battle. The locals touched turks offerings for 3 runs in the ninth to knot the score at 10 apiece; but two visiting players scammed across the home platter in the next frame while the All-Stars fell a tally short in their part of the final inning. J. Walwyler pitched for the home team.

The Western Reserve

The Western Reserve is a tract of land of 3,694,021 acres near Lake Erie which was reserved by the State of Connecticut when the states ceded their western land to the federal government after the Revolutionary war. Connecticut gave up jurisdiction over Western Reserve in 1800, but kept title to the land and sold it to individual purchasers.

Tin-Producing Countries

The main tin-producing countries of the world are British Malaya, Bolivia, Siam, the Netherlands East Indies, British Nigeria, China and the Belgian Congo. The two little islands of Banca and Billiton in the Netherlands East Indies are among the largest virgin tin producers.

Birds and Animals Per Acre

One bird per acre and about one deer per 20 acres are about the limit of these wildlife species that can be accommodated in various areas for the best welfare of the animals and birds themselves. Science Service states.

First King of Hearts

The first king of hearts was called Carolus (after Charles VI of France), the father of playing cards in Europe. Three hundred and twenty-five years later Bonnie Prince Charlie used Kings of Hearts as "visiting cards" to bestow upon his various hosts and hostesses.—Pearson's Weekly.

Territorial Waters

Territorial waters are those which are subject to the jurisdiction of a sovereign state. They include waters lying within a state, waters which are boundaries between states, and waters upon the coast.

Magnollas in Arctic Circle

Magnollas once bloomed within the Arctic circle. Fossil remains of ancient magnolla trees were uncovered in the frigid zone.

SENIORS PRESENT CLASS NIGHT

On Thursday, May 23, the Senior class is presenting Class Night in the high school auditorium. The scene is laid in the newspaper office of "The Daily Wind" of 1935, edited by the seniors. Each member of the class has a part in the program. There will be a dance after the program, which is open to the public. The admission to the program will be ten cents, and the admission to the dance will be ten cents.

TWENTY YEARS HENCE

A Farce in Two Scenes
Setting: Editorial rooms of the Daily Wind.

CHARACTERS

Editor-in-Chief..... Rodney Jacobs
His Private Secretary, Irene Crawford
Sports Editor..... Cropley Phillips
Society Editor..... Jane Warriner
His Stenographer, Anna Mae Turnock
Her Stenographer..... Virginia Tidmarsh
"Bob" Slater..... Dorothy Hunter
Movie Editor..... Edith Murphy
Steno..... Priscilla Brett
Office Boy..... Bill Hanson
Copy Boy..... Howard Bonner
A Visiting English Lord..... Ray King
Publicity Hound..... Joan Culver
Delegation of School Teachers.....
Sarah Perry, Marjorie Shoen, Grace Minto
Nurse from County Hospital.....
Bertha Cremin
Edison Electric Official.....

Radio Artists, Gwendolyn Siller, Armand Dalgard, Ollie Hunt, Chester Craft, Ruth Chinn, Herman Melan, Hermann, Xavier Hawkins.
SCENE I—Three A. M. Early Edition going to Press.
SCENE TWO—Evening Edition going to Press.

Commencement exercises will be held on Monday, June 3. William Rainey Bennett has been secured as the speaker for commencement exercises. Mr. Bennett has the reputation of giving more commencement addresses than any other man during a given year.

The other senior activities begun Tuesday night with Class Night program. The Ivy Day program will be on Monday, May 27, at 10 a. m., on the front lawn.

CLOTHING CLASS GIVES STYLE SHOW

The clothing class of the Antioch Township High School gave a style show to the student body, the mothers of the Home Economics Club members, and other invited guests. Among the invited guests was Miss Ada Hess, State Supervisor of Home Economics Education, from Springfield, Illinois. After the style show was over, the members of the Home Economics Club escorted their mothers and guests to the dining room where a short program followed consisting of a health play given by Lilian Much and Ruth Ferris, two vocal numbers by the musical trio, Gayle Pierce, Betty Lu Williams, and Helen Brett, a solo by Jeannette Peterson, and a talk by Miss Hess, after which dainty refreshments were served.

"SEQUOIA" COMES OUT NEXT WEEK

The high school annual, "Sequoia," will be distributed next week. A final drive for subscriptions will be made this week. This is the first made this year. The book, published since 1929, contains 64 pages in the book. There are 64 pages in the book. It includes individual portraits, group pictures of all the classes, clubs, organizations, and a number of very interesting snapshots. Of much interest is a section containing original poetry contributed by members of the various classes. The price of the annual is one dollar.

Freezing Water
Cold water will freeze first, being nearer the freezing temperature than the hot water. It is true, however, that water which has been boiled and then cooled will freeze more readily than water at the same temperature which has not been boiled. This is due to the fact that most of the dissolved air has been boiled out, increasing the thermal conductivity.

The First Opera in Public
Until the seventeenth century composers had employed various instruments, but merely to accompany vocal melody. The first opera performed in public was Peri's Euridice in 1596 and was scored for lute, harpsichord, theorbo, lute and flute.

THE NEWS SNAPSHOTS

DARBY AND JOAN OF CANINE LAND—All bulldogs are not as ferocious as they look, as Jillitt (left) and Cracker Jack prove.

FATHER OF ELECTRIC RANGE—George A. Hughes, president of Edison General Electric Appliance Company, Chicago, manufacturers of Hotpoint electric ranges, celebrates his 64th birthday by producing 500,000th range in company's history, and expressing gratification at present world-wide swing to electric cookery.

DEVICE OUTWITS OIL BOOTLEGGERS—John D. Collins, General Sales Manager of Tidewater Oil Co., has revealed how his company has foiled oil racketeers, who refilled cans with cheaper oil. Specially constructed machine cut off an eighth inch from the top and later replaced the severed portion. In order to eliminate this racket, a white band was put on two sides of the can with red circles which the bootleggers must break in order to open.

A PEACH ON THE BEACH—Come on in—the water's fine!

SENSATIONAL BOOKIE—Darrel (Cy) Blanton, pitcher of the Pittsburgh Pirates, who recently set the St. Louis Cardinals down with one hit. He has won four of his five games.

BICYCLE PATROL FOR NEW YORK CITY—A patrol of cyclists, to augment the regular police force, has just been assigned to duty in New York's public parks. Twenty-two like young men already have been selected to perform the service in the larger parks from dusk to dawn. Their duties are to aid the distressed, discourage vandals, and render first aid.

Purple in Shell Shells
In the days of ancient Rome the purple in the shell of certain snails was used in the making of Tyrian purple, a dye reserved for the nobility. The snail used this ink to create a smoke screen about itself in time of danger. Other species of snails are known to have poison glands which enable the snail to eject a stream of poison several inches. The highly ornamental shells of several species are used as umbrella handles.

Elephants Eat Trees
Trees strike one as making queer dishes, but elephants don't think so. There is nothing an African elephant likes better than an appetizing mimosa tree, some 20 feet to height. Pushing it over with its trunk, Jumbo will eat its sugar with its trunk, its roots, and even the bark on its branches.—Pearson's Weekly.

Respect Women of Bell
The women of Bell receive the most perfect respect from their menfolk. Although every girl goes about naked from the waist upwards, street insults of the type common to Europe are unknown. Before marriage a girl is free to take her choice of lovers, but once she has come to a decision she must remain faithful, or the punishment is death.

The Ace of Spades
The ace of spades was called Spadille for the games of ombre and quadrille, and was used as an ingredient, together with fiveadders, twenty-four spiders, seven loads, and a ewe lamb's heart, for the concoction said to have assisted the Corsican wretch to foresee Napoleon's career.—Pearson's Weekly.

Plants Used for Beverages
Among the plants that peoples of the world ferment or distill to make beverages, the Field museum exhibits a coconut palm, the century plant, a pepper plant, banana, and cassava roots.

Has Many Habitats
The barracuda is one of the most generally distributed fish in southern Florida waters. It is found in the streams and on the reefs during the fall and winter months and in the bays and sounds in considerable quantities during the summer.

Cause of Static
Static is a natural atmospheric interference. It is caused by stray, natural electrical discharges, traveling through the same medium. It is more prevalent by day than by night and far more troublesome in summer than in winter.

Make your old roof young again!

WHEN the sun has burned the heart out of your roof—and the rains have soaked away its vitality—give it a coat of Carey Asbestos Fibre Coating and watch it grow young again. So easy to apply—simply use a brush.

The National Housing Act enables you to have repairs and improvements made now and to pay the money back in easy monthly payments extending over a period as long as 36 months. Let us explain this simple plan without obligating you in the least.

ISERMANN BROTHERS

"Kensha's Leading Store for Men and Boys"
614-616 Fifty-sixth Street

TREVOR

Mrs. Anna Zmorzy and daughters, Evelyn and Mildred, Chicago, called on Trevor friends Sunday.

Miss Pauline Schafer, Kenosha; Peter and Emmanuel Kaiser, Fond du Lac, Wis., visited the former's brother, Chris Schafer and family, on Sunday.

Sunday visitors at the D. A. McKay home were: Harry McKay and daughter, Ruth, Mr. and Mrs. Robert McKay and daughter, Roberta, Mr. and Mrs. Max Warren and Mrs. Eva Sawills, all of Chicago.

Mr. and Mrs. Nelsen and son, Gilbert, Mrs. Sorenson, son Gordon, and Mr. and Mrs. G. Jensen, Racine, visited Sunday at the Alfred Dahl home.

Mr. and Mrs. Charles Oetting entertained Sunday for Mr. and Mrs. William Grippe, daughter, Florence, Evanston, Ill., and their daughter, Adeline Oetting, Oak Park.

Mrs. Alfred Dahl is visiting relatives in Racine.

The school children and parents attended the annual field day at Fox River Park Tuesday afternoon.

Mrs. Charles Oetting and Mrs. Jessie Allen were Kenosha shoppers Tuesday.

Champ Parham and Maurice Lux were Waukegan visitors Tuesday.

Miss Ruth Thornton and uncle, Huey McKay, were Chicago visitors Tuesday.

Mrs. Mary Bushing, Chicago, is making an indefinite stay with her son, Arthur Bushing and family.

Mrs. Pete Schumacher, sons, George and Raymond, were Chicago visitors Friday.

Hiram Patrick, Burlington, spent Tuesday with the Patrick families.

Mrs. James Walsh, Mrs. Charles Runyard and Mrs. Nellie Runyard attended the Willing Workers meeting at the home of Mrs. Floyd Horton, Antioch, Thursday.

Trevor school will close on Friday with a picnic. The dinner will be served at Social Center hall. Games will be played at the school children's ball park.

Mrs. Jessie Allen entertained a sister-in-law and children from Chicago on Sunday.

Mrs. Fred May, Antioch, called on Mrs. Nellie Runyard on Sunday.

Lee Walsh and children, Chicago, spent the day recently at the parental home.

Vernon Runyard with the remainder of the Physics class of the Wilmet high school spent Saturday at the conservatory at Lake Geneva.

Mr. and Mrs. James Lamb and daughter, Betty Jane, Kenosha, were Saturday evening callers at the Joseph Smith home.

Mr. and Mrs. George Kohlberg and son, Chicago, called on their sister, Miss Tillie Schumacher and brother, Pete Schumacher and family, Sunday.

Thursday callers at the Daniel Longman home were: Mrs. Daziel, Loon Lake; Mrs. Savage and Mrs. Kloak, Fox Lake.

Mrs. Arthur Bushing and Mrs. Mary Bushing were Kenosha visitors on Friday.

Mrs. Susan Carroll and nephew, Joe Burke, were Chicago visitors on Friday.

Joe Saller and son, near Wilmet, were Trevor callers Friday.

Mrs. Ray Bushing, Channel Lake, called at the Charles Oetting home Friday.

Degrees of Unbelief

Infidel is a term given to disbelievers in religion by those who do believe, rather than by themselves. An infidel is one who does not believe in religion, or, often, in the particular religion of those about him. An atheist is one who denies the existence of a God; while an agnostic is one who professes ignorance as to whether or not there may be a God, a future existence, etc., and who often holds that man cannot possibly prove the matter either way. Thomas Huxley was the inventor of the latter term.

Modern and Classical Greek
There is some difference between modern and ancient Greek. The vocabulary has changed by the intrusion of loan words from other languages, notably Italian and Turkish, though the infusion has not been so great as to give the language the appearance of a mixed language. After the establishment of the Greek kingdom, in 1830, there was a stronger movement toward the purification of the modern language and a closer conformity to the ancient Greek idiom.

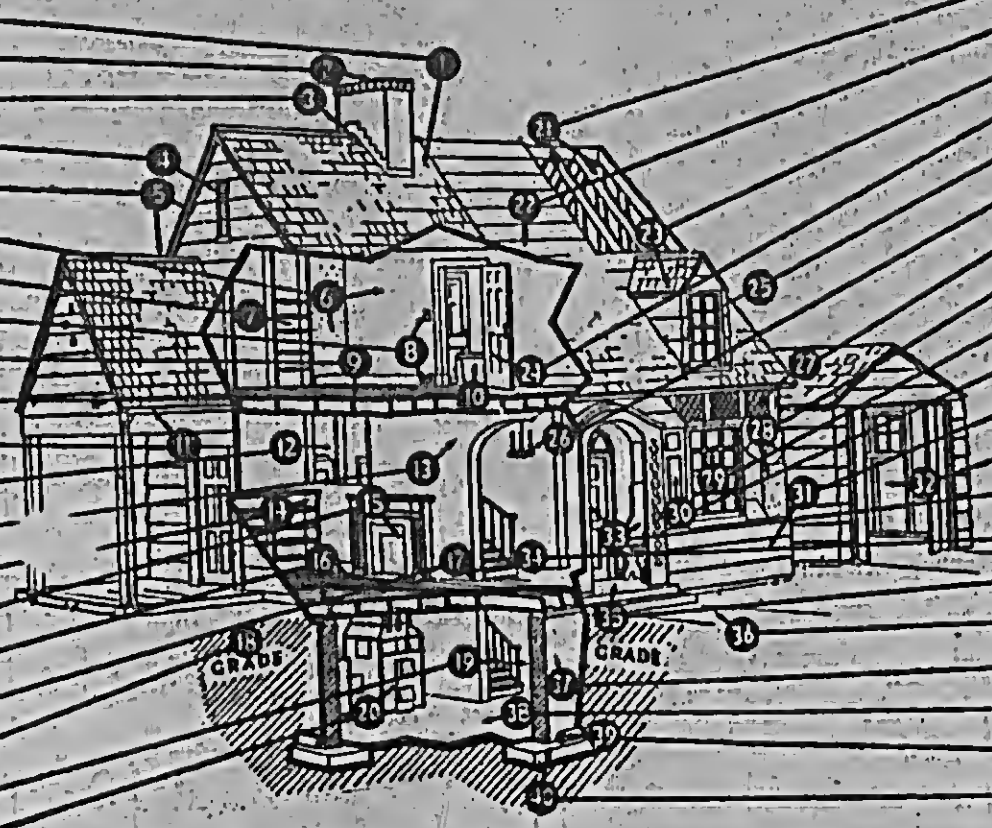

Making Emery Wheels
Emery wheels can be made by mixing about one ounce of shellac to a pound of emery. Use finely powdered shellac and add a small portion of rosin, a piece about the size of a walnut, to an ounce of shellac, and a piece of old vulcanized India-rubber about the same size, to give toughness. These are well mixed and matted together.

Splach Keeps Hair On
He who eats much spinach does well by his hair. Vitamin O, which is contained in spinach in great quantities, plays a very important part in the organism of the body. Shortage of this valuable vitamin results in impaired growth and premature old age, accompanied by the shedding of hair.—Pearson's Weekly.

The "Petticoat Flag"
The "petticoat flag" was a real red petticoat, "hooped and stayed" and flown from the mast of the Fayette on the occasion of the first sailing of the Chesapeake level of the Farmington canal on or about November 27, 1827.

-- THIS WEEK IN WASHINGTON --

Washington, D. C., May 18.—On November 6, 1934, proper approval was given for the construction of a warehouse at Fort Sheridan to provide storage facilities for the supplies of the Civilian Conservation Corps. The original plans called for a warehouse 400 feet long by 60 feet wide at an estimated cost of \$21,000. Considerable number of CCC workers pass through the Fort and the 2400 square feet of storage space was much needed.

It developed that the cost was underestimated and a building one half the size of that originally planned was constructed, necessitating leaving the supplies in the open with resulting damage and inconvenience. Several calls were made at the office of Robert Peckham, Director of Emergency Conservation Work, as well as the War Department, with a view to correcting the situation. The Director advised me this week that he had seen fit to approve the completion of the warehouse as originally planned and had authorized the release of sufficient additional funds for that purpose.

About 4,000 farmers "marched on Washington" this week to express their approval of the AAA. They were to be seen in the House Office Building, in the Capitol and in the Senate Office Building, each wearing a state delegation ribbon or card on his coat. My passing observation was that they were a substantial looking group of men.

The assembling of the farmers from various parts of the country in Washington precipitated considerable discussion in the halls of Congress. Several Democratic Senators have privately expressed doubts that the "march" was spontaneous. Sen. L. J. Dickinson, Rep., of Iowa, declared it was "inspired from Washington," with the purpose of creating the impression that the Administration's agriculture program was popular. It has been inferred that Chester Davis, AAA head, and the Secretary of Agriculture Wallace were responsible for the assemblage, with the claim that they used this means to "propagandize" the country for their program.

Another point of discussion precipitated by the assembling of the farmers in Washington this week has been the President's address to the group on the White House lawn. In that speech he said: "As you know, a great many of the high and mighty—with special axes to grind—have been deliberately trying to mislead

the people who know nothing of farming by misrepresenting—no—why use a pussyfoot word—by lying about the kind of farm program under which the nation is operating today."

Some of the members of the House and Senate reacted bitterly because of that statement. It was said that the President makes "fireside talk" on the radio in which he urges that the people feel free to criticize but when anyone criticizes the program he brands them as a liar. It is interesting to note that several members of the President's own party are the sharpest critics of the AAA: Senators Glass and Byrd of Virginia, Tydings of Maryland, Bailey of North Carolina, Ellison Smith of South Carolina, George of Georgia, and Gore of Oklahoma.

There promises to be a clash between the House and the Senate in connection with the NRA. Although the President requested that the NRA be extended for another two years, on Tuesday (14th) the Senate voted to extend the life of that agency for only 10 months (until April 1, 1936). The Administration leaders of the House, on the other hand, state that the House will vote to extend it two years. If the House takes that action, a sharp clash between the two bodies will doubtless follow, as Senator Pat Harrison, Chairman of the Senate Finance Committee, which has jurisdiction over this legislation, has stated that he will not agree to any member of the conference committee who would insist that the bill be taken back to the Senate for a vote on the changes.

The "Report of the Operation of the National Industrial Recovery Act, February 1935," shows the formulation and approval of 546 codes of fair competition and 185 supplemental codes. They fill 18 volumes and 15,000 pages. 11,000 administrative orders interpreting, granting exceptions and establishing classifications have been issued, together with 139 administrative orders pertaining to procedure and privileges under the NRA. It has involved administrative difficulties. 585 agencies of industrial self-government (code authorities) have been authorized, with several thousand regional and divisional subordinate agencies. Their budgets aggregate forty-one million dollars. To say the least, the NRA represents a vastly complex machine, performing administrative, legislative and judicial functions.

WE GUARANTEE

Give us your next work and see how hard we work to insure your satisfaction

Meaning of "Junkie"

The word junkie as often applied to congress was originally applied to a banquet, or a picnic or excursion with feasting but it has come to mean a trip at public expense by government officials to some distant post, territory or public works for the purpose of claiming for the purpose of inspection. Congressmen, especially, have been noted in the past for their junkies to distant regions. *Pathfinder Magazine*.

"Boxing the Compass"

Boxing the compass is the nautical term for a recital, in consecutive order, of all the points of a mariner's compass. This expression is also sometimes used in referring to a person who repeatedly adopts a different opinion or attitude on any particular subject. *Pathfinder Magazine*.

Wrote Most Famous Document

Thomas Jefferson required only one sitting to write the Declaration of Independence. It was started at night and finished by dawn with a quill on a writing desk of his own making, which is still preserved.

There are a few species of mice including the well-known house mouse. *Pathfinder Magazine*.

Dogs Have Topknot

Many dogs of the Mexican hairless variety are created with a topknot and carry a tuft of hair at the tip of the tail. . . . as others it is brightly and upright. The eyes, lashes, are yellow, hazel or dark, bordered with black or dark rim. Like that of an impatient race horse, and nervous tremor of the muscles and shivers is characteristic. Not classed for any particular utility, he is considered, however, a good hunter of rabbits and rats. His owners attest that his intelligence, brightness and affection more than repay that tolerance of his unsophisticated appearance. *Pathfinder Magazine*.

A Forgotten Adviser

Alexander Hamilton, the great first secretary of the treasury, had a son, James A. Hamilton (1788-1878), a remarkable, little-known or remembered mysterious figure whose advice was listened to by many administrations and Presidents of both political parties.

There are a few species of mice including the well-known house mouse. *Pathfinder Magazine*.

HICKORY

About forty neighbors, relatives and friends gathered at the home of David Pullen on North Main street, Antioch, Monday evening and surprised him and helped celebrate his birthday.

Miss Virginia Proline had an operation for appendicitis Saturday morning at the Victory Memorial hospital in Waukegan.

Master Billy Roberts had a bad fall the last of the week. He fell from a wagon and was injured. He was taken to the Victory Memorial hospital in Waukegan where they found his hip was dislocated. It was put in a cast and he returned home again.

Miss Grace Tillotson attended the monthly Nurses' Alumni meeting in Kenosha, Wednesday evening.

Mrs. Yarge Gilmore of Woodworth spent Wednesday at the John Crawford home.

Mr. and Mrs. Leo Thompson of Wheeling visited Sunday afternoon with Mr. and Mrs. Will Thompson.

Clarence Spiering opened his filling station on Corner Saturday.

William Glorasi and son, Victor, and daughter, Gertrude, from Waukegan called on old neighbors on route 173 Sunday afternoon.

Grace Elleen King returned to school Monday morning after an absence of several weeks.

Miss Lillian Wells of Waukegan was home over Sunday.

Mr. and Mrs. Clarence Crawford and daughter, Lucille, from Waukegan visited Sunday at the John Crawford home.

Mr. and Mrs. Ralph Fields and Hazel spent Thursday morning in Waukegan.

Gerhardt Lange spent Saturday in Chicago. Miss Helen Nielsen returned home with him and spent the weekend with her family here.

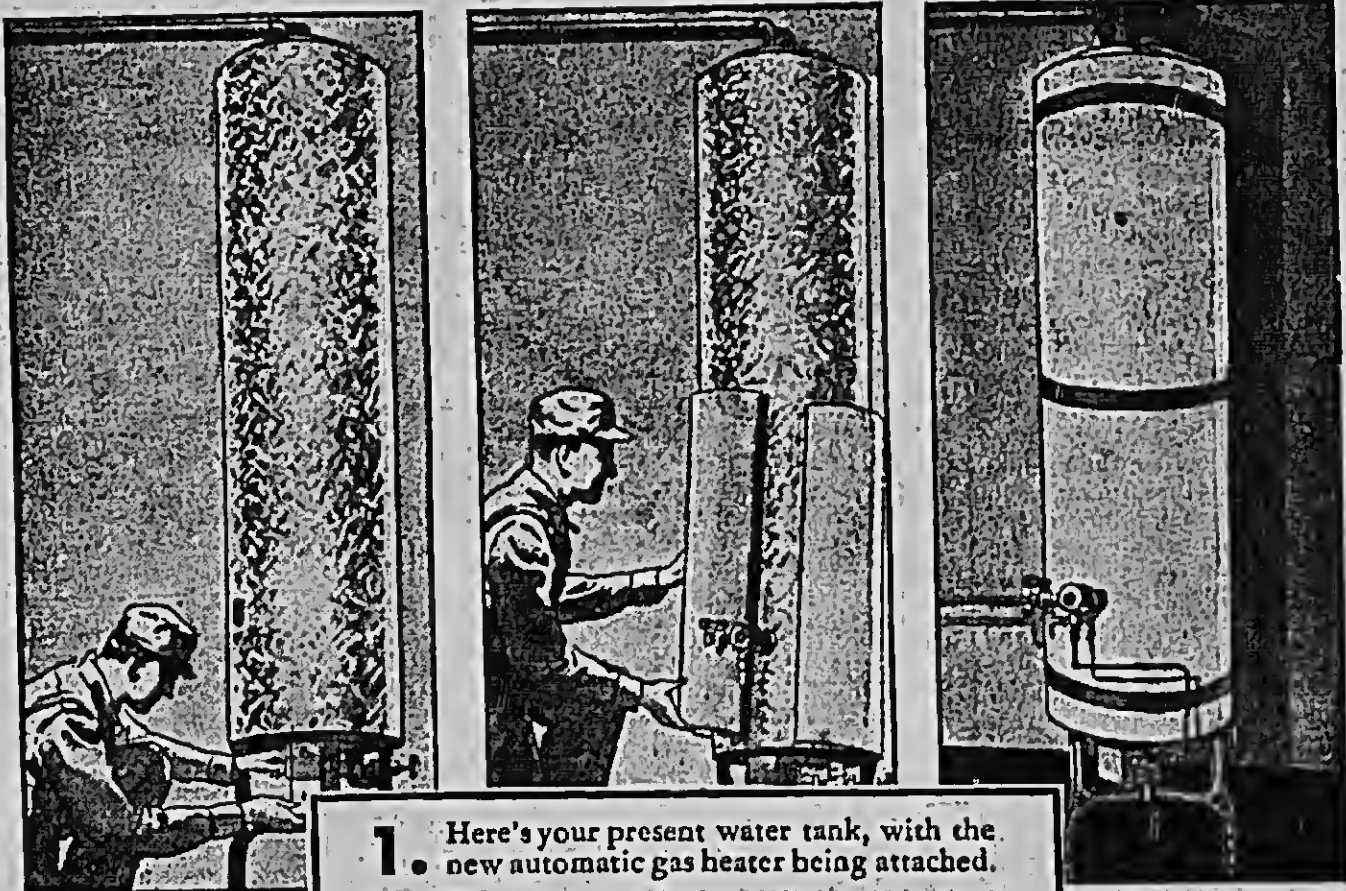

Mr. and Mrs. R. C. Bishop and Eloise, also Mrs. Alva Scoville of Kenosha visited Saturday evening with Mrs. Ellen Tillotson and Miss Grace.

Miss Rose Wolf returned to her work in Chicago Saturday.

The Salt-Water Pike

The barracuda is a salt-water pike. In general conformation the fish closely resembles a big, great northern pike or muskellunge. It is gray, marked with black on the back, shading through silver to white on the stomach. It is considered one of the most savage fish that swims and its great gaping mouth, armed with sharp slashing teeth, make it an instrument of destruction, probably not equaled by any other fish its size. While an inferior fighter to many game fish found in the same water, its strike is terrific. It hits a trolling lure or bait with a viciousness calculated to destroy and does not hesitate to mutilate other fish nearby or bite its enemy in size.

AMAZING OFFER

1. Here's your present water tank, with the new automatic gas heater being attached.
2. Next step . . . thick insulation is packed all around the tank to keep the heat in.
3. All done! Tank is completely insulated and covered, ready to use.

only **\$24.00** for

AUTOMATIC GAS HOT WATER SERVICE

Your old tank converted into an automatic heater in a few hours. No Down Payment. 24 months to pay

HERE is the quickest and most inexpensive way to enjoy the comforts and advantages of automatic gas hot water service. Install a storage tank conversion heater! For a remarkably small investment you can have this job done in a few hours. Only \$24 will cover the cost of converting a 12-

inch tank into an automatic heater! No down payment is required—and you have 24 months to pay. Think of it! Only \$1 a month for automatic gas water service. Take advantage of this new low cost plan to remodel your water heating system. Visit your nearest Public Service office for full details.

GROWING ANNUAL FLOWERING PLANTS

We all look forward to spring as the season of bright, colorful flowers. The homes we admire are those that have a profusion of flowers, but many do not realize how easy it is to have a brilliant floral display right in their own yard. The annual flowering plants described below give you a constantly changing color array that will brighten not only your own home but the entire neighborhood as well.

Asters—bloom August to September—all colors.

Alyssum—blossoms all summer. If not allowed to go to seed—white.

Calliopsis—blossoms mid-July until late fall—Yellow with red or brownish center.

Candytuft—blossoms continually if not allowed to go to seed—red, white and purple.

Cornflower—blossoms June to September—all shades of blue.

Cosmos—blossoms early June until killed by frost—all colors.

Marigold—blossoms mid-July until late fall—Yellow, all shades.

Poppies—June and July (yellow, all summer)—All shades pink, red, yellow, and white.

Ox-eye—blossoms all summer—pink, crimson, white.

Nasturtium—blossoms all summer—yellow and red.

Petunia—blossoms all summer—white, crimson, pink and deep purple.

Snapdragon—blossoms July and August—scarlet and white, white and yellow, pure white.

Stocks—blossoms from middle of July to middle of September—white, pink, red, purple.

Sweet peas—blossoms from June to October if kept well cut—all colors.

Zinnia—blossoms July, August and September—Scarlet, salmon pink and many other colors.

Always locate your flowers where the sun shines at least five hours a day.

Do not plant near large trees whose roots are widely extended or the tree will steal the moisture and plant food from your garden. Maple and oak trees are the worst offenders.

Do not work the soil when it is wet. It will cake all summer if you do. If a handful of soil pressed in the hand will not crumble when pressure is released, the soil is too wet.

All blooms should be kept cut with regularity if you expect continuous blooming.

Cereal Tips

By Barbara B. Brooks

THE crisp, ready-to-eat cereals can provide a pleasant change from bread crumbs in breadings, chops, fish, egg plant or other vegetables. You can roll croquettes in crushed corn flakes just as you would in bread crumbs. Sprinkle thickly over the casserole they add both to its eye and appetite appeal.

The fact that bran supplies iron and vitamin B in addition to the bulk needed for proper elimination, provides additional reasons for including it in the diet. Two tablespoons of all-bran yield as much iron as one egg and as much vitamin B as is found in a half glass of orange juice.

As is the case with most other foods, the crisp, prepared breakfast cereals have attained their great popularity because people like them. But also in their favor is the fact that they are an excellent source of energy, and served with milk and fruit they provide practically all the elements of a perfectly balanced diet.

Edison Disliked Decorations
Upon Thomas Edison's second trip to Europe the French Telephone company offered him a decoration which required that he wear a long sash. But the Edison family refused to stand the assertion that he couldn't stand for that. Persuaded by his wife, he did however consent to wear the little red button of the League of Honor. But whenever he saw any American approaching he would slip the button into his pocket for fear, as he said, "they might think I am trying to show off."

First Church at Jamestown
The first church at Jamestown, Va., consisted of an evening made of old salicloth, walls which were of rails of wood, seats of unheated trees, the pulpit bars of wood nailed to two trees. Captain Smith says of this: "Yet we had daily common prayer, every Sunday two services, and every three days the holy communion until our minister died." The tower of the Jamestown church which was afterward built is still standing.

Hints for Motorists

By C. R. Strouse

Director, School of Automobiles, International Correspondence Schools

A SIMPLE, easily improvised device is helpful in isolating noises made by the various parts of the automobile engine, and in spotting trouble due to worn bearings, worn valve springs or loose timing gears. A long screw driver and a tin can with one open end are all that are needed. Touch the screw driver to the various parts of the engine, holding the bottom of the tin against the handle of the screw driver and listening at the open end of the can. The device provides an effective engine stethoscope.

The old grease in the steering gear housing ought to be flushed out periodically. If there is no drain plug, a quart of hot cylinder oil slowly pumped into the housing and allowed to run out of the filler plug, will cause most of the grease to dissolve and flow out with the oil.

DO YOU KNOW—

Old bacon can be freshened if allowed to soak in buttermilk overnight.

Ink stains can be removed from the fingers if rubbed with the inside of a banana peel.

A tablespoon of vinegar in the lard used for frying doughnuts will prevent the lard from frying away and the doughnuts from absorbing grease. The table for a children's party can be decorated interestingly and luxuriously by using a pound each of animal crackers and vanilla wafers. Dip feet of animals into a cream icing, allow to stand until dry and arrange cake menagerie to advantage.

If a little vinegar is added to the final rinse, when washing silk stockings, all traces of soap will be removed. It will also preserve the silk.

Where It Is 3½ Years to Payday

Robert Morris, "Forgotten" Principal in One of Illinois' "Ghost schools," and Two of His Tiny Charges.

Robert Morris, principal of the tumble-down schoolhouse in Millidayboro, Jackson county, came out to see what the photographer was doing. One of his sleeves was empty and his clothes were old, shiny and unpressed.

"How much cash money do you get each month?" he was asked.

"Money?" he replied. "Money! Why, I've only been on the job here one year. This district pays its teachers with orders. They're cashed in rotation. I'll get my first month's pay in about three and a half years."

"How do you manage to live?" "I was saying in my youth," he said with a wan smile.

Mr. Morris didn't want to have his picture taken. He was, he said, a bit sensitive about his clothes. But persuasion won. The holes in the schoolhouse assure plenty of ventilation. Salaries have been cut about in half; no school supplies have been bought for the last three years; the janitor has been dismissed.

First to Play Juliet

In the first Shakespearean production it was the custom to use boy actors for female roles. The part of Romeo was played by Burbage and an unidentified boy played Juliet in the earliest performances. Between the time of Burbage's death and the Restoration there are no records of Romeo and Juliet on the stage. From 1642 to 1660 parliament prohibited public stage plays. After the lifting of this prohibition, Sir William D'Avenant received from the king exclusive stage rights for the play. His original Juliet was Mary Saunderson, afterward Mrs. Thomas Betterton, who is apparently the first woman ever to have played the part of Juliet.

Location of Albania

Albania, with a population of 832,000, is on the west coast of the Balkan peninsula, bordering upon Greece, Yugoslavia and the Ionian sea.

Did You Ever Try These Recipes? Do, Please

WOMAN'S PAGE

Toasted Corn Beef Sandwiches.
1 Sausage can corned beef
Slices of buttered bread
Prepared mustard.
Chill thoroughly the can of corned slices of buttered bread. Spread with prepared mustard and cover with another slice of buttered bread. Toast and cut into oblongs. Corned beef must be chilled to slice smoothly.

Cream Cheese, Pineapple and Nut Sandwiches.
1 pkg. cream cheese
2 tablespoons chopped nuts
2 tablespoons drained crushed pineapple
Few grains salt
Buttered white or whole wheat bread
Mix the cream cheese, nuts, pineapple and salt. Spread thinly on buttered slices of bread.

Coconut Bars
½ cup shortening
2 cups sugar
½ cup milk
2 eggs
½ teaspoon each, salt, soda and cream of tartar
1 cup cocoa
¼ cup chopped nuts
2½ cups flour (about)
1 tablespoon warm water
Cream sugar and shortening; add milk slowly. Beat eggs and add. Sift salt, cream of tartar, cocoa and 1 cup flour. Dissolve soda in water and add to mixture. Sift in dry ingredients. Mix well. Add as much more flour as necessary to make a dough to roll. Roll to ¼-inch thickness. Cut in finger strips. Sprinkle with nuts. Bake in a 400-degree F. oven for 10 to 12 minutes.

Fruit Salad
7 ounces gelatin base powder
1 cup boiling water
1½ cups pineapple juice
1 tablespoon sherry
2 tablespoons sugar
1 cup red cherries
1 cup pineapple
½ cup orange sections
1 cup cream, whipped
3 tablespoons chopped pecans.
Dissolve the gelatin powder in the hot water. Stir until thoroughly dissolved, then add fruit and wine flavoring. Add sugar. Set in a cool place. Cover bottom of fancy mold that has been rinsed in cold water, with a layer of the jelly. When set, decorate with fruit as desired. Add another layer of jelly and let set. Continue until all fruit and all jelly has been used. Unmold on platter, garnish with whipped cream and sprinkle with nuts.

Honey Orange
1 tablespoon shortening
1/3 cup strained honey
1 egg well beaten
1/3 cup bitter orange marmalade
¼ cup All-Bran
1/3 cup flour
½ teaspoon baking powder
½ teaspoon salt
1/3 cup salted almonds, chopped.
Cream shortening and honey. Add egg, marmalade and All-Bran. Sift flour, baking powder, salt, add nuts and stir into first mixture. Bake in greased 9x3 inches, in moderate oven (375 degrees) for 25 minutes. Cut in squares. Roll in powdered sugar. Makes two dozen one-inch squares.

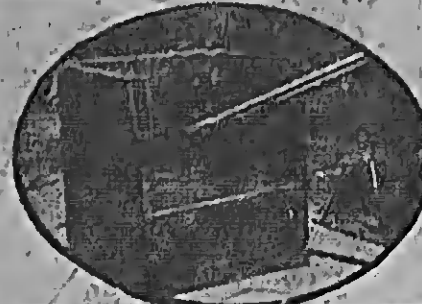

Black Walnut Cookies
¾ cup shortening
2 cups brown sugar
2 eggs, beaten
1 cup chopped black walnut meats
½ teaspoon salt
½ cup evaporated milk
1 teaspoon vanilla
3 cups pastry flour
½ teaspoon soda.
Cream shortening and sugar. Add eggs, then nuts and vanilla. Stir well. Fold in flour which has been sifted with salt and soda, alternately with milk. Beat vigorously. Drop teaspoons on greased pan. Bake in hot oven (400 degrees) until light and brown. Makes about five dozen.

Vegetarian Salad
2 large chilled tomatoes
1 large head lettuce
6 small carrots
6 cauliflower flowerets
On a portion of lettuce, place one thick slice of tomato. Around the edge of the tomato arrange a row of carrot slices. In the center place a cooked floweret of cauliflower. Serves six.

Ham and Oysters on Toast
6 slices boiled ham
6 slices bread
24 raw oysters
1 teaspoon butter
1 teaspoon salt
Pepper to taste.
Toast the bread slightly. Cover each place with a slice of ham. Place four oysters on each one. Season with salt and pepper and dot with butter. Bake them in the oven for a few minutes until oysters are done. Serve very hot.

"Toog," Name of Village
"Toog" is the name of a village in England.

Why "Typhoid Nurse" Is Giving 'Em Shots

Top, "drinking elation" at Saline county school fed from "choolhouse" roof. Center, toilet at the Farris school, Hamilton county. (No door is needed.) Bottom, an old eken bucket type of insanitary school well in Jackson county with some of the kids getting a load of germs.

When the reporter met the "typhoid nurse" in the office of St. L. Hamilton county superintendent of schools, Hamilton county, in McLeansboro, she talked of "shots" and sanitation and sickness. Out among the schools the reporter found pupils drinking from open cisterns, the water often coming from the schoolhouse roof.

He found ancient "openwork" toilets, falling apart; apparently of pre-Civil war vintage; buzzing flies and crawling insects.

In the Farris district, home of the above toilet, the assessed value of all property is \$10,040. Taxing for school purposes, at the legal limit, \$1 to the \$100 valuation, the school can get \$100.40 per year. There are 18 pupils enrolled. That's \$11.77 each.

The school asked for \$352.83 state aid last year. But the state, due to a legislative faux pas, is far back in its payments to the starving schools of the state.

The Resumption Act
In 1874 Senator John Sherman of Massfield, Ohio, introduced the famous Resumption Act, which passed the senate the same year and the house early in 1875. In 1877 he was appointed secretary of the treasury by President Hayes, and in that position had the unique experience of carrying out the crowning triumph of his fiscal policy which as senator he had originated and advocated. Through his supervision the resumption of specie payments by the government was accomplished, despite the dismal forebodings of several practical, acknowledged financiers.

The Greek Alphabet
The letters of the Greek alphabet, with the corresponding English letter, may be seen in any unabridged dictionary. They are: Alpha (a), beta (b), gamma (g), delta (d), epsilon (e), zeta (z), eta (e), theta (th), iota (i), kappa (k), lambda (l), mu (m), nu (n), xi (x), omicron (o), pi (p), rho (r), sigma (s), tau (t), upsilon (u), phi (ph), chi (ch), psi (p), omega (o).

Michigan, Indian Name
The name, Michigan, is believed by some authorities to have been derived from "mich-sang-yee-gan" of the Ojibway language. This does not seem at all unreasonable, as there are more than five thousand inland lakes in the state, to say nothing of the Great Lakes waters that come very near to surrounding it for "mich-sang-yee-gan" means land of lakes.

Idealism
The power of idealism is a curious power of seeing what we like or admire and then trying to imitate it; seeing things that are beautiful and trying to make other things like them; this power of idealism being a great guiding force in the upward movement of humanity.—Kansas City Times.

Odd Beliefs
Millions of Americans who are otherwise intelligent still believe that fish is a brain food, that they harm a watch by turning its hands backward, and that rats through some instinct always desert a ship before it starts on an ill-fated voyage.—Collier's Week.

Darwin No Revolutionary
There was little of the revolutionary about Charles Darwin, of evolutionary fame. He was a tolerant English gentleman, with a good sense of humor, and rather unusually sensitive where other people's prejudices were concerned.

Size of Yellowstone Park
Yellowstone national park is chiefly in the northwest part of Wyoming with narrow adjacent strips in Montana and Idaho. It covers a surface as the park proper about 62 miles in length, from north to south and about 54 miles in width, with an actual area of 8,350 square miles. To this region, as originally circumscribed, a forest preserve of some 2,000 square miles has been added on the east and south, giving a full area to the park of somewhat over 10,350 square miles.

Navy Uses Much Tin
Tin is a strategic material in the United States navy. It is necessary to the proper maintenance and operation of the navy in time of war. The principal items needed by the navy which require tin for their manufacture are containers for food, grease and oil; brass for bolts, nuts, screws, rivets, pipe, valve and flanges; solders and anti-friction bearing metals; manganese bronze and condenser tubes; airplanes and other implements of naval warfare.

Location of Goat Island
Goat Island, or Yerba Buena, is located in San Francisco bay being about half way between San Francisco and Oakland Mole. It is used as a naval station and training school.

The Pipe of Peace
The calumet or pipe of peace is about 2½ feet long. The bowl is made of highly polished red marble and the stem of reed. The stem is decorated with eagles' quills, women's hair and other objects.

Blames the Political Boss
Jud Tunkin says when a political boss takes charge it's sometimes hard to tell a policeman from a gangster in uniform.

Peep
through your own keyhole!

Homes sometimes become shabby before we realize what's happened. The walls, floors, ceilings may look to you just as they did 1, 2, or 3 years ago. But have they become battered and old-fashioned without your seeing it?

Now is the time to look at your home as critically as strangers do . . . to look at it as you yourself would look if you were planning to buy it. Because of the National Housing Act you can bring your home up-to-date at once.

Let us make an estimate for you today without any obligation to you. We will gladly explain what should be done and how you can conveniently pay for the work.

MOOSE LODGE IS REAL CENTER OF CIVIC ENTERPRISE

Throughout the half-million membership of the Loyal Order of Moose there is active a spirit of mutual helpfulness rarely found elsewhere. The mission of this international fraternity is one of humanitarianism both within its ranks and outside, wherever the need arises for the succor of human life. In business, in social affairs, in emergencies caused by storm or fire, by financial stress or by illness of the body, the Moose fraternity offers its aid and assistance.

Such a fraternity, then, is of great importance to every community. Here is an organized body ready to do its share and more, taking a part in every civic movement that is worthy, offering its help for the betterment of life and living conditions generally. Community pride inspires each local lodge, and repeatedly the Moose has been foremost in all works that are for the greatest benefit of all the people.

Within the fraternity itself there is a vast organization for the alleviation of human suffering. Chief among its activities is the amazing child city of Mooseheart, Illinois, where upward of 1,000 orphans of deceased members are given a home, an education, and instruction in a trade. Ranging in age from tiny infants up to young men and women about to be graduated from high school to take up life for themselves, the population of this amazing city is an interesting one. Mooseheart already in its twenty-two years of existence, has sent out hundreds of young men and women trained in heart, mind, and hand, to become sterling citizens wherever they go. The millions of dollars spent on them by the Moose has proved worth while. Not one of its graduates, through the many years, has ever been incarcerated in jail.

Of equal importance is the home for the aged, in Mooseheart, Florida. There, approximately 200 elderly couples on whom life has frowned, find sanctuary from the storms of life. As in Mooseheart, where families are not

separated, but are kept together, so in Mooseheart the elderly couples—man and wife—live in homes of their own or in the dormitories of this delightful city on the banks of the St. John's river. Medical care, bounteous food, in fact all the necessities of life and, because of the generosity of the lodges and chapters, many luxuries are provided in both Mooseheart and Moosehaven.

Added to this is the charity service carried on by the Moose for its members or their orphans who are unable to go either to Mooseheart or Moosehaven. Provision is made for them through the Supreme and local lodges.

Moose activities are not confined merely to lodge meetings and social affairs. There is a larger field of effort, and this magnificent fraternity has found that opportunity for service and is answering the call wherever humans are in distress.

Turks Picking Surnames Must Shun Duplications

Ankara.—The Turks have now received from the national assembly the regulations which are to govern their choice of surnames.

To prevent unnecessary duplications in surnames, it has been ruled that no two families within a registry district may adopt the same name. Another restriction is that no one may henceforth adopt names ending in "ia" or "ian," which are the terminations usually indicating Greek or Armenian families. This will mean that Greek and Armenian families in Turkey will be assimilated more easily in the population.

It has been ruled, too, that the surname Atatürk, "father of the Turks," which has been conferred by the nation on the Ghazi, shall not be adopted by anyone. It is to be sacrosanct, and even names resembling it are to be avoided.

The first comer to a registry office with a proposed surname has the right to it. A later comer may not buy it from him. If a later comer proposes the same name it shall receive a suffix meaning "Little" or "Big," or some other distinctive addition.

Still Much to Evidence
Curiosity was the beginning of philosophy and science

"Economic Tinkering"

NEWS ITEM: "Oil trade association, petitioning Congress to avoid unnecessary interference and making NIRA an industrial dictatorship, warns that 'economic tinkering' and political control would increase gasoline prices and demoralize industry."

Shack That Housed Two "Unpaid" School Teachers Two Full Years

Two men teachers, getting uncashable "orders" for their salary pay, lived in this decrepit building in Dowell, Jackson County, Ill., two years.

"Please don't use my name," pleaded the principal of the elementary school in Dowell, Jackson county, Ill., when this picture was taken. "I have friends in other parts of the state and I'm ashamed."

This principal, an efficient young schoolmaster, who lived in this shack with another teacher two years, said he would have to stay in Dowell during his vacation this summer, adding, "I have no money and can't get out."

One man teacher in the school recently managed to buy a new suit of clothes with a "school order." Then he sold the suit because he had to have money.

But things are getting better. The men are out of the shack this year. One of them is heading with a girl school teacher's mother. He added: "She gives me room and board for 'orders.' I pay her \$34 a month. She manages to cash the orders for groceries. So we're getting along." Two

teachers in Dowell are getting \$70 a month and two \$50 a month "in orders." The orders have to be held about four years.

A mine has been giving the school "coal dust" to keep the building warm. Someone has to go to the mine and get it as the mine doesn't deliver the gift coal. There are 251 pupils and six teachers in Dowell; salaries have been cut 50 per cent in four years.

Teachers' orders outstanding total more than \$10,000; warrants outstanding, \$8,800; tax collections, 1931, were \$6,877. Bond requirements, due this year, are \$2,470.

When teachers were hired for the year they were asked:

"Can you finance yourself one full year without pay?" Orders have been unpaid since April, 1931. One girl teacher got some silk stockings recently. Her parents gave them to her.

Two Eclipses This Year
Delaware, Ohio.—Two eclipses—one of the sun and the other of the moon—will be visible to the greater part of the United States in 1935, figures given out by Dr. N. T. Bobrovniker, head of Ohio Wesleyan University's Perkins observatory show.

Advocates Hobbies
Raleigh, N. C.—The happiest people in the world are those with hobbies, Dr. Ed Hegepeth, of the University of North Carolina insists.

Infant Swallows Strychnine; Lives

Sydney, N. B. W.—The eighteen-month-old daughter of Mr. and Mrs. Mervyn Rosa swallowed 32 tablets containing strychnine—and survived. She got them from a cabinet where they had been placed after being prescribed for a member of the household. The normal dose was one tablet every eight hours. The baby was rushed to hospital, and a stomach pump used. Doctors thought she could not live, but she did.

Making Emery Wheels

Emery wheels can be made by mixing about one ounce of shellac to a pound of emery. Use finely powdered shellac and add a small portion of rosin, a piece about the size of a walnut, to a ounce of shellac, and a piece of old vulcanized India-rubber about the same size, to give toughness. These are well mixed and melted together.

Naval Nations
Only the United States, Great Britain, France, Italy and Japan are the real "naval nations." The next forty countries have only insignificant fleets, while the next twenty have none at all, this latter class including Belgium which, for economic reasons, abolished its navy in 1928.—Collier's Weekly.

AMUSEMENTS

"WLS PARADE" AT THE GENESEE SUNDAY

A new unit of WLS stars known as WLS ON PARADE are coming to the stage of the Genesee Theatre in Waukegan next Sunday, May 26th. The WESTERNERS appear in ten gallon hats and "chaps" with full authority, for they were born and reared on the famous K-Bar Ranch near Roswell, N. M. Coming to WLS in 1933 they soon became prime favorites for their original renditions of the rollicking tunes and sweet ballads of their native range lands. Louise Massey who sings sweetly and plays piano is a popular member of the WESTERNERS.

The screen attraction Sunday "Four Hours to Kill" starring Richard Barthelmess, Gertrude Michael, Joe Morrison and Helen Mack is full of action and thrills from start to finish.

Spinach Keeps Hair On

He who eats much spinach does well by his hair. Vitamin C, which is contained in spinach in great quantities, plays a very important part in the organism of the body. Shortage of this valuable vitamin results in impaired growth and premature old age, accompanied by the shedding of hair.—Pearson's Weekly.
